PREPARING FOR INSTALLATION

- Remove the card insert from inside the case

TOP CORNERS

BOTTOM CORNERS

INSERTING YOUR IPAD INTO THE CASE

- Firmly press the left-hand side corners of the iPad into the left corners of the case.
- Firmly press the right-hand side corners of the iPad into the left corners of the case.
- Once all four corners are firmly in position, and the edge of the case fits smoothly around the front outer edge of the iPad, the device is installed correctly into the case.

REMOVING YOUR IPAD FROM THE CASE

- Release the top right corner of the iPad by pushing the corner of the case back and away from the iPad.
- Release the bottom right corner of the iPad by firmly pushing the corner of the case away from the iPad.
- The iPad will be easy to remove once the top and bottom right corners are released from the case.

CHARGING THE KEYBOARD

Insert one end of the USB-C cable into a power source (not included) and the other end into the port on the right side of the keyboard. The red light will illuminate while charging, and will switch to green when fully charged.

TURNING THE KEYBOARD ON AND OFF

Once the keyboard is charged, it can be turned on and off using the toggle switch that is located on the right side of the keyboard, next to the charging port.

Off = toggle towards the iPad

On = toggle away from the iPad

PAIRING YOUR KEYBOARD WITH YOUR IPAD

The Dux Bluetooth Keyboard links to your iPad via a Bluetooth connection. The first time you use the keyboard case, it must be paired with your iPad.

ON THE KEYBOARD:

- Turn the keyboard on, making sure that the on/off toggle is switched away from the iPad.
- Press and hold the **Fn** key and the **C** key at the same time, until the blue light next to the charging port flashes. When this happens, the keyboard is "discoverable" by the iPad.

ON THE IPAD:

- In settings, select Bluetooth > On
- Select "Dux Bluetooth Keyboard" from the Devices menu.
- When successful connection is made, the status light turns solid blue for a short time, and then turns off.

STATUS LIGHT INDICATORS

Your Dux Bluetooth Keyboard includes status lights that provide information about the battery power and Bluetooth connection:

FEATURE	COLOUR	PRESENTATION
Power- charging	Red	Solid
Power- fully charged	Green	Solid
Power- low	Red	Flashing
CAPS lock	Green	Solid
Bluetooth Discoverable	Blue	Flashing

BATTERY POWER CAPACITY INDICATOR

For battery power capacity indicator press **Fn** and **Control** simultaneously.

Green light flash	1 time	25% of battery
Green light flash	2 times	50% of battery
Green light flash	3 times	75% of battery
Green light flash	4 times	100% of battery

WE BELIEVE IN REDUCING WASTE AND PRESERVING THE ENVIRONMENT. THIS PACKAGING IS RECYCLABLE.
This packaging is made from more than 50% recycled material. Check with your local recycling facility for best disposal.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure statement. The device can be used in portable exposure conditions without restriction.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

UK Warning: The device is in compliance with the essential requirements and other relevant provisions of the UK Radio Equipment Regulations 2017 (SI 2017/1206) as amended. The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

Application and manufacturer name: Chun Lam Group (International) Limited
Application and manufacturer address: 8 Zhen Yuan Road, Caiwu, Wuxi, Jiangsu, China
