Product Name: Babysense Connect (Babysense 7 Revision B)

Model Number(s): CU-100/2-F

Product Description: Babysense 7 revision B (Babysense Connect) is an electrical device for the domestic customer that tracks the baby's breathing and heart rate. Baby monitor system comprises 3 units - a control unit (that is placed on the baby's bed and is visible to parents and caregivers), connected to 2 sensor pads (that are placed beneath the baby's mattress). The control unit is battery powered, by 4 nonchargeable AA alkaline batteries. System: Control unit connected by a cable to a sensor (located under the mattress). Control unit sends data to a mobile application via BLE technology. The sensor is connected to a control unit which analyses the incoming signals. If the monitor analyzes there is no movement, the control unit triggers both acoustic and visual alarms

We authorize MiCOM Labs Inc., 575 Boulder Court, Pleasanton, California 94566, USA, to act on our behalf on all matters concerning the certification of above named equipment.

We declare that MiCOM Labs Inc. is allowed to forward all information related to the approval and certification of equipment to the regulatory agencies as required and to discuss any issues concerning the approval application.
