

## 1 OVERVIEW

1. Function Button

Turn ON / Hold to turn OFF | Tap to cycle modes

2. Selection Button

Turn ON | Tap for function options

3. Top LED Indicator

Mode & Power Level displays

4. Front Out Air-vent

Clean air exits here

5. Back In Air-vent

Contaminated air enters here

6. Back Power Port

Barrel type socket

## 2 KEY FEATURES

**ACTIVE SANITIZATION**  
Plasidic Micro-lightning process  
Anti-germ & VOCs technology

**NO EXOTIC FILTERS**  
No expensive, special or exotic filters required  
A simple fine dust filter for ease of mind

**RAPID EFFECTIVENESS**  
Where every breath counts,  
Sanitise within seconds

## 3 PACKAGE CONTENT

1. airKAVE ROOM
2. Fine Dust PM 2.5 filter (Type: E12 or H13)
3. Air-vent Large Dust filter (Washable)
4. Power supply adapter
5. Manual & Warranty Card
6. Magnetic Feet (x4)

## 4 QUICK START

Preparation before use:

1. Plug power supply adapter into wall socket
2. Plug barrel type connector into ROOM's back power port
3. Press or : Button until LED indicator turns green
4. Tap button to change sanitization power level

## 5 SAFETY PRECAUTIONS

8. Do not allow infants and young children to operate unsupervised
9. Keep magnetic feet away from infants, young children and animals as they can be choking hazards
10. Do not insert any objects into the In or Out air-vents
11. Do not operate without any parts attached or any panels left open
12. Close left side panel and ensure all filters are seated correctly before operating
13. Do not block the In or Out air-vents during operation

## 6 OPERATION GUIDE

### 6.1 Function Button

In Manual, Program and Timer modes, press to cycle through the power levels.

Tap or to turn ON the ROOM.

To turn OFF, press and hold for a few seconds.

Tap to cycle the modes, LED will flash to different colours when cycled.

### 6.2 Mode Selection

Immediately after turning on, default mode is set to Manual.

### 6.3 Mode Indicator

LED MODE	DESCRIPTION	
RED	OFF	Fan & sanitization Off, WIFI in Standby
WHITE	MANUAL	Direct control by user
BLUE	PROGRAM	Time & Day schedule set by user
YELLOW	TIMER	Turn off after a set duration
GREEN	ECON	Pre-programmed optimized performance

In Manual, Timer and Program mode, sanitization power levels can be adjusted manually from the ROOM interface.

In Econ mode, sanitization power level is automatically set and cannot be manually adjusted.

## 6.4 Sanitization Power Levels

In Manual, Program and Timer modes, press to cycle through the power levels.

In Program mode, you can configure each schedule to a specific sanitization power level, for any time and day.

For more details, see: [7.6 Configure: Program](#)

In Econ mode, sanitization power level is automatic and cannot be manually changed during operations.

## 7 PANELS

### 7.2 Control Panel

- On/Off – Turn the ROOM to Standby mode
- Mode/Power Status – Display current status here
- Modes – Switch to Manual/Timer/Program/Econ
- Power Level – User can take manual control
- Advance Panel – Access by “Gear” icon (Top Right)
- Logout – Return to login page “Cross” icon (Top Left)

Switch modes to Manual, Timer, Program or ECON:

Click Manual, Timer, Program or ECON button to activate. You can change to manual mode by:

1. Click “manual” button or Select a sanitization power level
2. Press button to apply manual mode

### 7.3 Advance Panel

- Device Name – Display name of the ROOM
- Login Password – Set custom password
- Configure – Configure options for specific modes
- System – Configure device settings
- Bright – Set the brightness of the LEDs indicator
- Reset – Apply factory default

Set new Device Name and/or Login Password:

1. Select the ROOM name/Login Password field
2. Enter a new alphanumeric entry
3. Click “Apply” to set new name/password
4. Click “Back” to return to Control Panel

Set specific options from the Configure and System group. Clicking on the button will take you to the specific panel options.

LED brightness can be set for all indicator LEDs. Ranging from “Off”, “Dim”, “Normal” or “Bright”

Set brightness:

1. Select brightness option from top down menu
2. Selection will be applied immediately

**Reset - Warning!**  
Selecting this option will restore all software to factory default. Please see for more details: [1.1 Troubleshooting](#)

## 7.4 Configure: Timer

Timer mode automatically shutdown the ROOM within a set duration when activated. Configure the duration of the timer in hours and minute incrementation:

1. Select hours from 00hrs to 24hrs and Select minutes from 00mins to 59mins
2. Select sanitization power level by tapping  button
3. Click "Apply"
4. Click "Back" to return to Advance Panel

## 7.5 Configure: Program

Enable PROGRAM mode from OFF mode:

Press  twice to select Program mode: press  to cycle sanitization power level until ROOM enters OFF mode.

Please see for further details: [6.4 sanitization Power Levels](#)

Program allows ROOM scheduling for the entire week. Set time, day of the week and the sanitization power level.

Please ensure the Time and Day is set to your time zone before utilising PROGRAM mode.

To configure:

1. Select the time in hours and minutes (HH:MM am/pm)
2. Select the sanitization power level (Off / Silent / Low / Normal / Boost)
3. Select the day or days (Monday to Sunday)
4. Click "Apply"
5. Click "Back" to return to Advance Panel

Delete a schedule, click "Delete" on the far right side.

30 programs can be scheduled. For further details please go to our website for the latest manual: [www.air-halo.com](http://www.air-halo.com)

## 7.6 System: Clock

To ensure Program mode is running correctly, set ROOM to your current time zone.

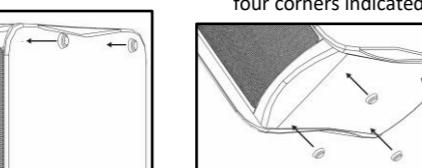

To configure:

1. Set Hours, Minutes and AM/PM
2. Set date (DD-MM-YYYY)
3. Click "Apply"
4. Click "Back" to return to Advance Panel

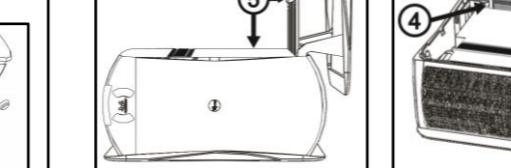

## 8 MAGNETIC FEET

ROOM can be positioned vertically or horizontally on the right side panel.

**Side Position:** Attach magnetic feet to the right side panels at the four corners indicated.

**Bottom Position:** Attach magnetic feet to the bottom panel at the four corners indicated.

## 9 MAINTENANCES

### 9.1 Cleaning Recommendation

Before cleaning, please switch OFF & Unplug Power Supply

- Surfaces: Slightly damp cloth
- In/out-vent Metal Mesh: cloth & vacuum
- Large Dust Filter: vacuum & rinse with water (periodically)

### 9.2 Surfaces

Use a slightly damp cloth to wipe clean any blemish or dirt on the surface.

### 9.3 In & Out-vent Mesh

Vacuum the mesh carefully, use a cotton bud to remove dust from between the vents.

### 9.4 Large Dust Filter

1. Position horizontally with left-side panel on top
2. Lift the top side panel & gently remove large dust filter

3. Wash clean with water & dry thoroughly before replacing  
4. Vacuum clean any dust or obstruction within

5. Align large dust filter with "tabs" facing outwards and push down until it clicks
6. Close the top side panel until it clicks

### 9.6 Fine Dust Filter Disposal

When fine dust filter is full, do not incinerate. Disposed separately from household waste.

### 9.7 Repair

Maintenance by user is not advised. For more details please see:

#### 11.2 Warranty

[11.3 Warranty](#)

### 10 SPECIFICATIONS

- Model: AHD01
- Modes: Manual / Timer / Program / ECON
- Sanitization Power Levels: Silent / Low / Normal / Boost
- Weight: 5kg
- Air sanitizer: Plascide Technology
- Recommend Usage: 250ft<sup>2</sup>
- Supply: 100-220V@50/60Hz | Output: 12V === 5A
- Consumption: 60W
- Dimension (283 x 333 x 140)mm

SUBJECT TO CHANGE WITHOUT PRIOR NOTICE

## 9.5 Fine Dust Filter Replacement

It is recommended to replace fine filter (Type: E12 or H13) every 6-9 months. Before replacement, carefully vacuum around and inside the interior.

**CAUTION:** Do not remove Fine Dust filter without unplugging power supply first.

To replace the fine dust filter, position with left-side panel on top:

1. Lift the front edge of the left-side panel
2. Grip firmly to remove and pull out the fine dust filter
3. Align replacement filter and push until it is flush with the opening

### 9.6 Fine Dust Filter Disposal

When fine dust filter is full, do not incinerate. Disposed separately from household waste.

### 9.7 Repair

Maintenance by user is not advised. For more details please see:

**KAVE INDUSTRIES LLC**

8605 SANTA MONICA BLVD #53476, LOS ANGELES, CA 9006

**Advisory Statement:** This product may cause interference to radio equipment and should not be installed near sensitive communications equipment or other critical navigation or communication equipment operating frequency is 0.025 MHz.

**FCC Compliance notice:** The equipment has been tested and found to comply with the applicable limits under Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to licensed radio services. However, the airkave generates, uses and can radiate radio frequency energy and, if not installed and used according to the instructions, may cause harmful interference to radio communications. There is no guarantee that interference will not occur in a particular installation. If this airkave does cause harmful interference to radio television reception, or to another authorized radio service, which can be determined by turning the Hotspot off and on, the user is encouraged to contact the manufacturer or an experienced radio/TV technician for help.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
