

2.4G 天线规格书

Test Equipment & Conditions

1. Network Analyzers :

Agilent 8753D 5071B

2. Communications Test Set:

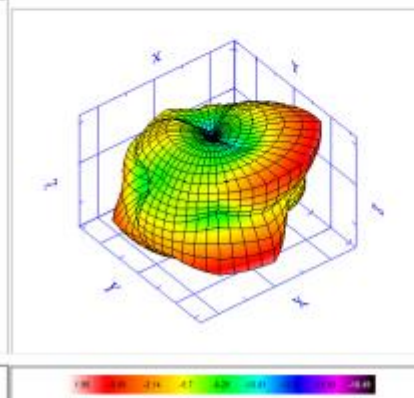

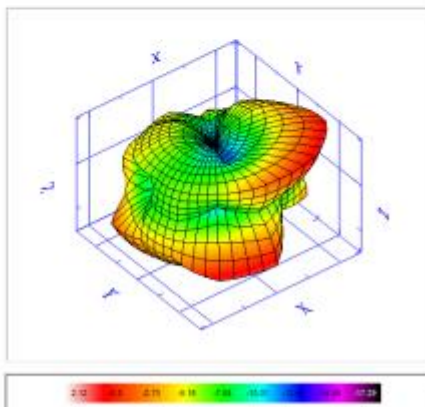

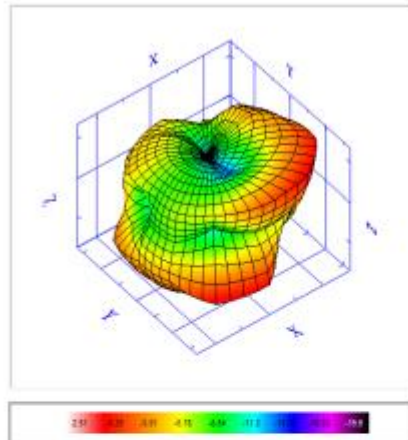

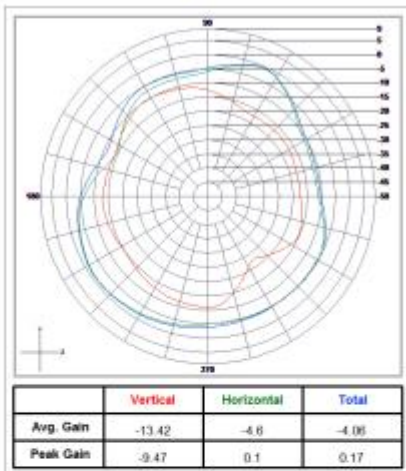

Agilent E5515C

3. 3D Chamber Test System

Effiency &Gain

materials: 0.81 White transparent copper
wire impedance: 50R frequency: 2.4G

Product Specification

A. Electrical Characteristics

Frequency 2400MHz ~2500MHz

VSWR <3.0

Efficiency >50%

Impedance 50 Ohm

Polarization Line

Gain 0.17dBi

B. White transparent tinned copper wire material

Cable Type 0.81 white and transparent

Connector Type : NO

Dimension

C. Environmental

Operation Temperature - 30 °C ~ + 80 °C

Storage Temperature - 30 °C ~ + 85 °C
