

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is positioned horizontally against a blue background. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 100 mm. The component features a large circular silver pad on the left, a central integrated circuit (IC) with several pins, and various other electronic components and solder joints. The PCB has a complex, irregular shape with several mounting holes.
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. This view shows the component from a different angle, highlighting the circular silver pad and the central IC. A black ruler with white markings is placed vertically to the left of the component, showing measurements from 0 to 100 mm. The component's shape and components are consistent with the first view, but the orientation and specific details of the solder joints and components are different.
