

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

**Radiation Emission Test
Setup (Below 30MHz)**

**Radiation Emission Test
Setup (30MHz to 1GHz)**

Radiation Emission Test Setup (1GHz to 18GHz)	 A photograph of a radiation emission test setup for the frequency range 1GHz to 18GHz. A white, cube-shaped test item is placed on a yellow, rectangular turntable. The turntable is positioned in the center of an anechoic chamber, which has walls covered with white, square-shaped absorbers. A red, curved object, possibly a probe or a shield, is visible on the right side of the turntable. The floor of the chamber is covered with a blue, textured material.
Radiation Emission Test Setup (Above 18GHz)	 A photograph of a radiation emission test setup for frequencies above 18GHz. A white, cube-shaped test item is placed on a yellow, rectangular turntable. The turntable is positioned in the center of an anechoic chamber, which has walls covered with white, square-shaped absorbers. A blue, curved cable or probe is visible on the right side of the turntable. The floor of the chamber is covered with a blue, textured material.
