| <p><b>EUT Housing and Board<br/>View 1</b></p>      |  A photograph showing the disassembled components of an Electronic Under Test (EUT). On the left is the main assembly with a black top cap, a purple component, and a green PCB with wires. To its right are the black top cap and the green PCB separately. A black ruler with white markings is positioned vertically and horizontally for scale. The background is a blue textured surface. |
| <p><b>Solder<br/>Board-Component View<br/>1</b></p> |  A close-up photograph of the green PCB component. The board is circular and populated with various electronic components, including a central microcontroller, resistors, and capacitors. A green header is visible at the bottom. A black ruler with white markings is placed below the component for scale. The background is a blue textured surface.                                     |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>2</div> |  A photograph of a circular green printed circuit board (PCB) component. The board is positioned on a blue textured surface. A black ruler with white markings is placed to the left and bottom of the component for scale. The ruler shows measurements in millimeters, with markings from 10 to 100 visible. The PCB has several small components, including a central square component and several small circular components. Text on the PCB includes "HYDROFLOW", "RangeExtender Rev. A", and "Design By Zero Byte LLC".        |
| <div>Solder<br/>Board-Component View<br/>3</div> |  A photograph of the same circular green PCB component from a different angle. The board is positioned on a blue textured surface. A black ruler with white markings is placed to the left and bottom of the component for scale. The ruler shows measurements in millimeters, with markings from 10 to 100 visible. The PCB has several small components, including a central square component and several small circular components. Text on the PCB includes "HYDROFLOW", "RangeExtender Rev. A", and "Design By Zero Byte LLC". |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>4</div> |  A circular green printed circuit board (PCB) component is shown against a blue background. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component has several small components soldered to it, including a small black integrated circuit (IC) and several resistors. The text "WALTEK" is visible on the component. |
| <div>Solder<br/>Board-Component View<br/>5</div> |  A rectangular battery component is shown against a blue background. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is white with a yellow label that reads "L3 503035" and "200mAh 3.7V". A red and black cable is attached to the component, ending in a white connector.                                  |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>6</div> |  <p>A photograph showing a small, rectangular, silver-colored component with a yellow solder mask, mounted on a blue PCB. The component is connected to a red wire. A black ruler with white markings is placed below the component for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).</p>                                                                                                 |
| <div>Antenna View</div>                          |  <p>A photograph showing a green circular PCB with various electronic components, including a microcontroller and several capacitors. A red rectangular box highlights a specific area on the PCB. A red line points from a label "BT Antenna" to this highlighted area. A black ruler with white markings is placed below the PCB for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).</p> |
