⚠ WARNING

Please disconnect the charger and turn your product off before cleaning. Warranty will be voided if you attempt to disassemble the product yourself. Placing the product in direct sunlight can cause premature aging. Avoid operating in dusty places or dirty environments. Avoid extreme heat or cold when using product (-10°C to 40°C). Avoid spilling liquid or inserting foreign objects into the device. The product must not be dropped or subjected to intentional impact. Disassembly, impact, sun exposure, fire, and compression can cause battery failure. If the battery is compromised please do not continue to use.

WARRANTY

This product has a 1 year warranty against defects in manufacturing under regular consumer use. For instructions about how to obtain warranty service for your product, please contact Customer Service: info@primebrandsgroup.com.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. This product is compatible with all wireless audio devices, Bluetooth® and non-Bluetooth®.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Activate Voice Assistant : Touch and hold the left earbud Multi-Function Button for 2 seconds  
Toggle Noise Reduction Mode : Touch and hold the right earbud Multi-Function Button for 2 seconds  
Remove Pairing / Reset / Power Off : Touch either earbud five times

POWER ON + PAIRING

The earbuds power on automatically when removed from the charging case, or can be turned on manually by holding the touch area for five seconds. To connect, enable Bluetooth on your device, select "SHRP-TWS05" from the list, and you're ready to go. Once successfully paired, they pair automatically with your device once powered on.

If only a single earbud connects, return both earbuds to the case and remove them again, or manually restart them to enable dual-earbud pairing.

**Charging Case & Touchscreen Controls**  
The charging case powers on by holding the back button for four seconds, and the touchscreen allows menu navigation with swipes. Holding the back button for two seconds lets you restart, power off, or restore the case. On first use, a single tap connects the earbuds to the case and locks or unlocks the screen.

CHARGING

**Charging the Earbud Case**  
Connect the charging case to a wall adapter using the included USB-C cable. Remove from power source when fully charged to preserve battery life.

**Charging the Earbuds**  
Place the earbuds in the charging case. They will begin charging automatically. A red LED light will appear on each earbud to indicate charging is in progress. The light will turn off when charging is complete. When the earbud battery is running low, you will hear a warning sound. If not recharged, the earbuds will power off automatically.
