

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (Electronic Unit) housing. The housing is open, revealing a black plastic shell and a grey cardboard-like interior. A green printed circuit board (PCB) is visible, featuring a circular component with a white center and a yellow band. The PCB is connected to a small red component. A ruler is placed horizontally below the housing for scale, showing measurements in millimeters.
Solder Board-Component View 1	 A close-up photograph of the solder board-component view. It shows a green PCB with various electronic components, including a red component, a yellow band, and a circular component with a white center. The PCB is connected to a small red component. A ruler is placed vertically to the left of the PCB for scale, showing measurements in millimeters.

Solder Board-Component View 2	 A photograph showing a green printed circuit board (PCB) component with a circular silver-colored metal pad and a small red component. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm).
Antenna View	 A photograph showing the internal components of a device, including a coil antenna and a green PCB. A red box highlights the coil antenna, and a red line points to it from a label "Coil Antenna". The device is placed on a blue textured surface.
