

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer sits on a wooden desk, connected by a red cable to a power line filter unit on the floor. The filter is plugged into a wall outlet. To the right is another wooden desk with a computer mouse on it.
Radiation Emission View (Below 30MHz)	 A photograph of a radiation emission test chamber. The interior walls are lined with white, square-shaped electromagnetic interference (EMI) absorbers. In the center, a yellow test fixture sits on a circular turntable. In the foreground, a blue metal frame holds a probe or antenna, positioned to measure the radiation from the test fixture.

**Radiation Emission
View (30MHz to 1GHz)**
