

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.

This device complies with Part15 of the FCC Rules. Operation is subject to the following

two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Warning Statements:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment shall be installed and operated with minimum distance 20cm between the radiator & body.

Features

1. Passed WPC 1.2.4 BPP certification.
2. Double decoding module, high anti-interference ability, high reliability.
3. Foreign object detection function.
4. Support Samsung 10W, Apple 7.5W fast charge.

Function

1. Automatically recognize the adapter type when booting.
 - A. Ordinary 5V adapter, working at 5W.
 - B. QC adapter allows Samsung, Apple's entry into the wireless fast charge mode.
2. Automatically detect wireless devices, and automatically start charging when the device is detected.
3. Foreign object detection function: stop working and alarm when the foreign matter is detected.
4. Overvoltage protection function
5. Overcurrent protection function

Electricity:

1. Input voltage: 5~14V (max)
2. Output power: 15W (max)
3. Overvoltage protection value: >13V
2. Overcurrent protection value: 2.4A

display:

1. Standby state: no display
2. Working status: always on
3. Abnormal state: flashing
