TURN IT UP!

WIRELESS HEADPHONES

QUICK START GUIDE
LY300

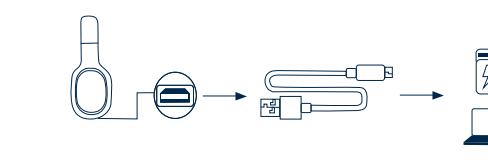

What's in the Box?

A  **B** 
C 

A. 1 pair wireless headphones
B. 1 micro USB charging cable
C. 1 quick start guide

Initial Setup

1. Use the included micro USB charging cable to connect your headphones to a power source and charge your device for about 3 hours.

2. Once your headphones are fully charged, press and hold the **POWER** button for 2 seconds until the indicator light blinks red and blue. Your headphones are now in pairing mode.

3. On your smartphone or tablet, search for the Bluetooth® device named 'Turn It Up Wireless Headphones' and tap to connect. A blinking blue indicator light will confirm successful pairing.

Press & Hold to Power on

Press and hold to increase volume.

Parts
Micro USB Charging Port
3.5mm AUX IN

Bluetooth® Pairing

After initial Bluetooth® pairing, your headphones will automatically connect to the previous paired device when turned on.

To pair your headphones to a new device:

1. Disable Bluetooth® on your previously connected device.
2. Press and hold the **POWER** button on your headphones for 2 seconds to enter Bluetooth® pairing mode. The LED light on your headphones will blink red and blue, indicating that pairing mode is active.
3. On the new device you wish to pair, search for the Bluetooth® device named "Turn It Up Wireless headphones" and tap to connect. A blinking blue light will confirm successful pairing.

Press & Hold for Bluetooth® Pairing

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Caution: Changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
