

# ANC True Wireless Earbuds

## User's Guide

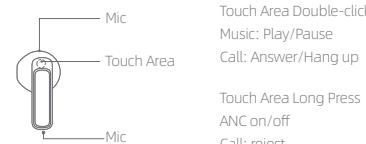

2024-01 A01

### Appearance & Controls

#### Charging case

#### Earbuds

#### Packing list

- Earbuds & Charging case x1
- User guide x1

### Power on & Connect

#### 1. Power on/off

Automatically power on when opening the charging case. Automatically power off when the earbuds are put back in the charging case and closing the cover.

#### 2. Pairing mode

First pairing: after the new earbuds turn on for the first time, it will automatically enter the pairing state.

Re-pair: place the earbuds in the charging case, and long press the function button on the case for 2s. When the charging case indicator light continues to be white, the earbuds will enter the pairing state.

#### 3. Multipoint

With the earbuds already connected to one device, connect another new device by placing it in the charging case and following the "re-pair" step to connect.

#### 4. Automatic reconnection

After the earbuds have been paired to a device, open the charging case, and it will automatically connect back to the recently connected device. If the automatic reconnection fails, operate on the Bluetooth screen of the device to connect.

### Important Safety Instructions

Before using and operating the equipment, please read and abide by the following precautions and keep the instructions properly.

1. When using the device to listen to music or calls, it is recommended to use the appropriate volume required for music or calls to avoid hearing damage.
2. Please use and store the equipment and accessories within the temperature range of 5°C-35°C. When the ambient temperature is too high or too low, it may cause equipment failure.
3. Please place the device or its accessories in a ventilated, cool place without direct sunlight.
4. Please keep the equipment and accessories out of the reach of children. Children may damage the equipment and accessories unintentionally or swallow small parts and cause danger.
5. In places where the use of wireless devices is prohibited, please abide by the regulations of the place and turn off the device.
6. When using this device, please keep a distance of at least 15 cm from implanted medical devices (such as pacemakers, etc.).
7. Stop using the device before cleaning and maintaining the device, please use a clean and dry soft cloth to wipe the device.

### Warnings

1. Do not use the device while driving, riding a bicycle, operating machinery, or doing work that requires attention to external sounds.
2. Do not place the device near heat or fire.
3. Do not use heating tools (such as: microwave ovens or hair dryers, etc.) to dry the device.
4. Do not subject the device and its accessories to strong shocks or vibrations.
5. Do not disassemble or modify the device and its accessories without authorization.
6. Do not use the device during thunderstorms. Thunderstorms may cause abnormal operation of the device and increase the risk of electric shock.
7. Use of unapproved or incompatible power sources and chargers may cause malfunction, fire, explosion or other dangers."

### FCC regulatory conformance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

The SAR limit of USA (FCC) is 1.6 W/kg for body averaged over one gram of tissue. Device types Pods T6 V1 (FCC ID: 2BA5W-PODST6V1) has also been tested with 0mm against this SAR limit.
