Smart Table Lamp

Wireless Type

## User Manual

## Package Contents

- Smart Table Lamp
- Wireless Charging Pad
- Type-C Charging Cable
- User Manual

## Product Features

### Hidden switch:

There is no obvious key switch. The touch switch is hidden on the metal lamp cover. Touching any place of the entire metal lamp cover will trigger the switch and make the table lamp enter the working state.

### Three color temperature adjustments:

The table lamp has three lighting modes of white light, warm light and warm white light, and the color temperature of the light can be adjusted according to the needs.

### Stepless dimming:

Continuous light brightness adjustment can better meet your various lighting needs.

### Wireless charging:

Get rid of the trouble of plugging in and charging. Use the wireless charging base to charge the table lamp, after charging, you can use it at any time, or place it on the charging base, and continue to use the table lamp while charging. At the same time, the charging base supports charging of mobile phones that can charge wirelessly.

## Touch Switch Description

### Short press:

Short press to power on - warm light (3000K) - white light (6000K) - warm white light (4500K) - shutdown, cycle in sequence.

### Long press:

Long press the stepless button to adjust the light brightness. The first long press stepless adjustment increases the light brightness, and the second long press stepless adjustment decreases the light brightness.

### Memory function:

It can remember the set light brightness, and keep the set light brightness when you turn on the lamp next time.

## Technical Parameters

Items	Parameters
Model	VP-One
Wattage	0.5-4W
Dimmable (Yes/No)	Yes
Color Temperature	3000K~6000K
Color Rendering Index	>95
Luminous Flux (Lm))-0H	10-170lm
Input	5V2A
Battery Capacity (mAh)	4000mAh
Charge Time (Hours)	5H
Lighting Time (Hours)	7H-60H
Lifetime (Hours)	10000H
IP Rating	IP 54
Product Material	Aluminum alloy + PC
Product Dimension (mm)	Ø93mm×H309mm

## Attention

1. For the first time to use this product, please fully charge this product before using it.
2. Please avoid placing this product in a high temperature or humid environment.
3. Please place the product away from fire or explosives.
4. Do not use charging equipment with a voltage greater than 5V to charge this product.

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.  
-Increase the separation between the equipment and receiver.  
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.  
This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
