| TD1 top    |  A top-down photograph of a black, rectangular electronic device. The top surface features a series of parallel ridges. A silver-colored metal connector is visible on the right side. A small, rectangular label is affixed to the top surface, displaying technical specifications. The device is mounted on a base with four screws. |
| TD1 bottom |  A bottom-up photograph of the same black, rectangular electronic device. The underside shows a series of parallel ridges. A small, rectangular label is affixed to the bottom surface, displaying technical specifications. The device is mounted on a base with four screws.                                                         |
