# Using the Lights

This product comes with two LED lights.

Note: You must charge both lights before using.

## Charging

Each light can be charged separately by plugging one end of the included charging cable into the charging port of the light and the other end into a USB charging adapter. Charging takes approximately 30-60 minutes to complete.

## Powering

Press the power button next to each light to turn ON. Press and hold for approximately 3-5 seconds to power OFF the corresponding light.

While powered ON, press the power button to adjust the brightness to switch through 3 light modes and 9 light settings.

# Using the Remote

You can remove the remote from the tripod's base by pulling it out.

Note: You must charge the remote before using.

## Charging

Charge the remote using the included USB cable. Insert the micro-USB end into the charging port on your remote, then insert the standard USB end into USB charging adapter. The LED indicator on your remote will turn red while charging and turn OFF once charging is complete.

## Pairing

1. Once charging is complete, you can turn the remote ON and OFF by pressing and holding the shutter button for three to five seconds. The LED Indicator will flash blue indicating it is waiting to pair.
2. On your phone, go into the Bluetooth page in the Settings app. Make sure Bluetooth is ON before connecting to the available device "TR2L36".

## Capturing

Once your remote is paired with your phone, you can press the shutter button on the remote and your phone will snap a picture. You may need to have your phone's camera app open. Some performance may vary depending on your phone model.

iOS & ANDROID Compatible

# Using the tripod

1. Expand the tripod's legs and place it on a flat, even surface.
2. Place your phone into the expandable smartphone cradle. **IMPORTANT NOTE:** The smartphone cradle can only extend to hold a phone width between 2.5-4 inches. Anything larger will damage the smartphone cradle.
3. Twist the screw at the base of the smartphone cradle to make sure it is tight and secure.
4. Use the remote to wirelessly take pictures and videos.
5. When you are finished using the tripod, it can be folded forward and easily stored for later use.
6. You can also attach other devices to the tripod base such as a GoPro action camera. Twist off the attachment base screw, and insert a compatible attachment. To attach, insert the screw back in and twist to secure.

# Using the Selfie Stick

Push the legs together, then extend the stem to the height of your preference to use the selfie stick feature. Pull out the remote to wirelessly take pictures and videos.

Push the Legs  
Together to use  
as Selfie Stick
