

Manual

1. Type winch remote control
2. Model: LF-WR03-315
3. Working voltage DC12V. Another 24V / 48V (optional)
4. Operating frequency 314.985 MHZ
5. Total load power 120W
6. Remote distance 0-30 m
7. Operating temperature-40-80 (°C)
8. Scope of application 2000 LB-20000LB ATV, Marine winch, electric gourd
9. Operating current: 10 A
10. 0-30 m operation distance
11. Rolling code. Additional learning code, fixed code can also be customized
12. Color: optional
13. Receiver 4 core wire, respectively: black (GND) red (VCC) yellow (output) white (output)
14. The code way: receiver on the power, immediately at the same time long press (5 seconds) transmitter IN and OUT, hear the receiver relay tick a response, namely the code success. Note: This process must be completed within one minute after the receiver is powered on. After the time, the program will close the pair code. At this time, the receiver is powered off again, and then the power on can activate the pair code program.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
