

The diagram shows a white rectangular Charging Case with a circular button on the front. Below the case are three accessories: a Lightning cable for mobile devices, a 3.5mm TRRS cable for various cameras, and a Type-C cable for various cameras. At the bottom, there are three small icons representing the transmitter (TX1), receiver (RX), and transmitter (TX2).

1. Open the charging case, TX/RX will automatically power on and connect automatically.
2. If the blue light is always on, it means the connection is successful, and if the blue light flashes slowly, it means the connection is unsuccessful.

3

Transmitter (TX) To clip on the collar

Receiver (RX) To plug into the mobile

4

The receiver adopts a replaceable interface design, and all three types of connectors are compatible: Replaceable All in One Compatibility with mobile, Tablet and Cameras

5

TX/RX can be charged after putting it in the Charging Case. The red light turns on for 3 seconds and then goes out.

When the blue light is always on, it means it is charging. When TX/RX is fully charged, the blue light will go out.

6

When the external power supply is charging the charging case, the red light flashes slowly to indicate that it is charging, and the red light is always on when it is fully charged.

7

Charging Case Interface: Type-C
Charging Current: 5V1A

Wireless Transmission Mode	2.4GHz
Transmission Range	300m
Push-Buttons	0/10
Microphone Sensitivity	-86dB $\pm$ 1dB (0dB=1V/Pa/1kHz)
Microphone Distortion	<0.1%
Microphone Sample Rate	44KHz
Frequency Response	20Hz-20KHz
Product Dimensions	73.3x17.2x12.1mm R0.47, 16.5x7.14mm (Accessories not included) Charging Case: 65.2x32.5x23.1mm
Net Weight	18.0g Charging Case: 118.8g
Battery Capacity	750mAh Charging Case: 1500mAh
Working Current	75mA
Operating Time	80-200min
Charging Time	About 4-5 hours Charging T/C and R/T 2.5 times at the same time Charging Case About 1.5 hours

1. Keep out of reach of children when charging
2. Store this product away from dust, do not store it in a humid environment for a long time
3. When idle for a long time, it is recommended to charge the battery once a month to avoid reducing battery life due to long-term storage
4. Do not throw this product to avoid falling damage, do not suffer from water droplets, or place it in a container with liquid
5. Do not use sharp objects to scratch or expose to the sun, and do not approach exposed fire sources

Product list: charging box*1, receiver*1, transmitter*2, replaceable plug*3,
windproof cap*2, charging cable*1, storage bag*1, manual*1

The schematic diagram used in this manual is for reference only, the actual product
may be different from it, and the actual product in the package shall prevail

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC ID: 2BAC8-TDS9
