Colocación

Pruebe todas las sugerencias para obtener el mejor ajuste y sellado adecuado. Colóquelo en el canal auditivo y gírelo ligeramente para ajustarlo de la mejor manera.

- 5 -

■ Instrucciones para uso seguro

Para evitar daños auditivos, mantenga el volumen a un nivel moderado nivel. Evite escuchar música a un volumen alto durante períodos prolongados de tiempo, lo que puede causar daño permanente a la audición o pérdida de la audición. No utilice este dispositivo mientras conduce, monta en bicicleta, cruce de caminos, etc., donde se requiera su concentración. Nota: El audio y el video pueden estar ligeramente desincronizados cuando ver video usando auriculares.

Después de cargarlo, desconecte el cable de carga de la unidad para evitar que el producto se cargue durante mucho tiempo. Se prefiere que el voltaje de salida y la corriente del cargador sean 5 V/1 A o 5 V/1,5 A. Si el voltaje de salida y la corriente del cargador exceden los especificados, se causarán daños graves al producto y la garantía del producto no será válida.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
