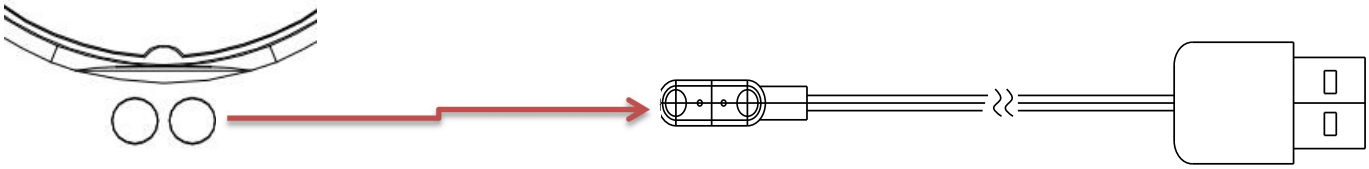
Please enter the APP for detailed product functions

2. Charging the watch

This product is a magnetic charging device, with one end of the charging cable connected to the charging adapter via USB and the other end attached to the contact point on the back of the watch. The watch screen will display a charging indicator, indicating the start of charging



Note: Connect the USB port to a charger or computer USB port with an output current of 5V500mA or higher for charging

3. Download and install the APP

Scan the QR code below with your phone to download and install the app; Download Tencent App Store; Android phones can also use Google Play, while Apple phones can use the Apple Store and search for "JYouPro" to download and install.

Mobile system requirements:

Android 8.0 and above, iOS 9.0 and above

4. Connect the watch

After turning on Bluetooth on your phone, open the "JYouPro" app on your phone, select "My" and "Devices", click to scan the device, find the corresponding device, and click to connect, pair, and bind

Before pairing, ensure that the watch's battery level is above 20% to avoid pairing failure due to insufficient battery

2. During pairing and connection, ensure that the Bluetooth on the phone is turned on and the media audio on the watch is turned on

3. If the watch is not connected to the mobile app for a long time or the power is cut off for too long, the time may be inaccurate and the app needs to be synchronized

4. To view watch product information, scroll down and click on the device information option to enter the information and view product information

Bluetooth data transmission

When the watch is connected to the mobile app "JYouPro", the watch will instantly synchronize data with the app via Bluetooth, such as weather, notification messages, sports and health data, etc. After disconnecting or turning off Bluetooth, these data will not be synchronized

5. Simple explanation and display of commonly used functions

Dial selection: Long press on the main dial for 3 seconds to enter dial mode, then swipe left or right to select the dial and click to exit the view;

APP download: Scan the QR code in the manual to download the APP

Bluetooth music/voice assistant usage: To use these two functions, you need to pair and connect your watch and mobile app "JYouPro", and also connect to

"Audio Bluetooth". To use the above three functions, you need to connect two Bluetooth devices at the same time;

matters needing attention

1. Do not disassemble, repair, or modify the product without authorization.
2. Do not violently collide with the product to avoid damage.
3. Please avoid using in strong magnetic fields, direct sunlight, or high temperature environments.
4. This product is not intended for disease diagnosis, treatment, or prevention purposes.
5. Please avoid wearing the watch strap too tightly and keep the contact area between the watch and the skin clean.
6. Children should use this product under the guidance of their parents to avoid harm.

Common problem handling

The watch cannot be turned on

1. Please hold the power button for more than 3 seconds
2. If the battery level is too low, please charge it in a timely manner.

Bluetooth not connected or unable to connect

1. Please try restarting the watch and reconnecting.
2. Please try restarting your phone's Bluetooth and connecting again.
3. Do not connect your phone to other Bluetooth devices at the same time.
4. After the watch is connected, it will enter sleep mode when not in use; When not automatically connected to the watch after hibernation, you need to open and refresh the mobile app "JYouPro" to automatically connect.
5.When the Bluetooth of the watch audio is not automatically connected, please go to "Phone Settings" ->"Bluetooth" ->"Save Device" to connect and pair.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different
from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
