

User Manual

Model: D2

Product Diagram

Specifications

- Product Model: D2
- Bluetooth Version: V5.3
- Sensitivity: 90dB
- Signal Distance: ≥15m
- Playback Time: Approximately 8 hours (at 70% volume)
- Talk Time: Approximately 8 hours
- Standby Time: Approximately 60 hours
- Charging Time: Approximately 1.5 hours

Functional Operations

1. Power On
The earphones will automatically power on when taken out from the charging case. When the earphones are in the power-off state, long-pressing the multi-function touch area for 3 seconds will power them on.

2. Power Off
Placing the earphones back into the charging case and closing the lid will automatically power them off. When the earphones are in the power-on state, long-pressing the multi-function touch area for 5 seconds will power them off.

3. The earphones will automatically power off if there is no connection with the phone for more than 3 minutes.

4. Power On Reconnection
After taking the earphones out of the charging case, they will automatically power on, pair, and reconnect to the last paired and Bluetooth enabled phone.

5. Pause/Play
In the music playback state, a single tap on the multi-function touch area of the earphones can play/pause the music.

6. Switch Tracks/Activate Siri
•During music playback, a quick double-tap on the multi-function touch area of the right earphone will switch to the next track. A quick double-tap on the multi-function touch area of the left earphone will switch to the previous track.
•Long-pressing the multi-function touch area of the earphones for 2 seconds will activate Siri.
•During music playback, a quick triple-tap on the multi-function touch area of the left earphone will increase the volume, and a quick triple-tap on the multi-function touch area of the right earphone will decrease the volume.

7. Call Answering/Rejecting/Ending
When a call comes in, a single tap on the left/right earphone's multi-function touch area can answer the call, and a 2-second long press can reject an incoming call. During a call, a single tap on the left/right earphone's multi-function touch area can end the call.

8. Low Battery Warning
When the battery of the Bluetooth earphones is low, there will be a low battery alert sound indicating the low battery status. When the battery is extremely low, the earphones will power off.

Pairing Procedure

In the power-off state, simultaneously long-press the touch area of both the left and right earphones for 3 seconds, or take out both earphones from the charging case to power them on. After powering on, the left and right earphones will enter automatic pairing mode. When one side's indicator light goes off and the other side's indicator light flashes, it means the earphones have paired successfully. In the Bluetooth search list of your phone, find the "D2" Bluetooth earphones and click on the earphone name to establish a successful connection with your phone.

Charging

1.Place the earphones into the charging case and close the lid. The earphones will start charging automatically, and the earphone indicator light will stay on. When the earphones are fully charged, the indicator light will turn off.
2.Insert the USB end of the Type-C charging cable into the interface of a 5V power adapter, and insert the Type-C connector into the Type-C interface of the charging case to charge the charging case.

Important Notes

1. Please charge the earphones in a safe environment. After fully charging the charging case, please disconnect the charging cable to avoid potential damage caused by prolonged charging.
2. When listening to music, adjust the volume to a suitable level to avoid long-term usage at high volume, which may harm your hearing.

3. Try to avoid using earphones in areas with sources of interference as it may interfere with the earphone signal.
4. Avoid using earphones in humid or corrosive environments to prevent damage to the electronic components of the earphones. Bluetooth technology provides &stable wireless Connction to your smart phonse and other Bluetooth davicas.There are no wires beiring tangled and earbuds can fast pair with stable connction up to 10M Bluetooth range or more.
2.Can be connction to two call phones at the same time
