- 6 x Iron Pipes
- 1x Remote Controller
- 1x Power Adapter with Cable

Product Structure

Specification

Model	MF30002R
Material	Metal + PC
Light Source	36W LED+2.5W per color(RGB)
Power Consumption	36W
Luminous Flux	3600 lm
Dimmable	Yes (5%-100% full dimming)
Color Temperature	3000K-4000K-5000K-6500K(4LevelsAdjustable)
Lifespan	40,000Hrs
Battery for Remote Controller	AAA x 2
Remote Distance	Within 8m/26.2ft
Input Voltage	AC100-240V 50/60 Hz
Adapter Voltage	DC24V 1.5A
Product Size	10"(D) x 70"(H)

Installation

It's very easy to install, as shown below:

Step1: Connect the iron pipe with the light base by spinning clockwise.

Step2: Then connect the iron pipe with the other iron pipes by spinning clockwise.

Step3: At last, connect the iron pipe with the LED round light by spinning clockwise.

The installation is finished, then plug in adapter, you can button control or remote control the light.

Make sure the remote control is matching the lamp : power plug in the lamp , use the remote to control the lamp. Normally the remote controls the lamp perfectly ;

If remote control doesn't work for the lamp, please re-match the Remote and Lamp.
Matching procedure :

1. Unplug the floor lamp.
2. Press and hold the CCT power button on the remote control,

3. Plug in the floor lamp and wait for the light to turn on.Keep on pressing the CCT power button during this procedure.

4. Release the CCT power button if LED lights flashes, matching successfully. Please contact us via mail if it still doesn't work.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
