This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

L' émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux

CNRS d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux

conditions suivantes :

(1) L'appareil ne doit pas produire de brouillage;

(2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RF Exposure Statement:

This equipment complies with Canada radiation exposure limits set forth for uncontrolled environments. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Cet équipement est conforme aux limites d'exposition aux radiations définies par le Canada pour des environnements non contrôlés. Cet équipement doit être installé et utilisé à une distance minimum de 20 cm entre l'antenne et votre corps. Cet émetteur ne doit pas être installé au même endroit ni utilisé avec une autre antenne ou un autre émetteur.

Any changes or modifications not explicitly approved by manufacturer could void your authority to operate this equipment. RF Exposure Information

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

This equipment should be installed and operated with a minimum distance of 20cm between the

radiator and your body.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device,

pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection

against harmful interference in a residential installation. This equipment generates, uses and

can

radiate radio frequency energy and, if not installed and used in accordance with the

instructions,

may cause harmful interference to radio communications. However, there is no guarantee

that interference

will not occur in a particular installation. If this equipment does cause harmful interference

to radio or

television reception, which can be determined by turning the equipment off and on, the

user is

encouraged to try to correct the interference by one or more of the following measures:

.

Reorient or relocate the receiving antenna.

.

Increase the separation between the equipment and receiver.

.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

.

Consult the dealer or an experienced radio/TV technician for help.

Cautions to this device not explicitly approved by manufacturer could

void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

This equipment should be installed and operated with a minimum distance of 20cm between the

radiator and your body.
