60 mm × 30 mm

position:

FCC/ISED notices:

The FCC/ISED notices ("The device complies with ...") won't be part of the label. Reason:

The text – even in 4 pt type size – would be quite big and there is no position which is ...

- ... on an essential main part of the transport robot (e.g. frame), ...
- ... nearly 100 % safe from damage in automatic mode and ...
- ... big enough for such a big label.

Instead, the notices will be included on the third page of the user manual.
