# 1. Components & Specification

## Components

Repeater (SRT-8200)

Power Adapter  
(DC 12V/1A)

User Manual

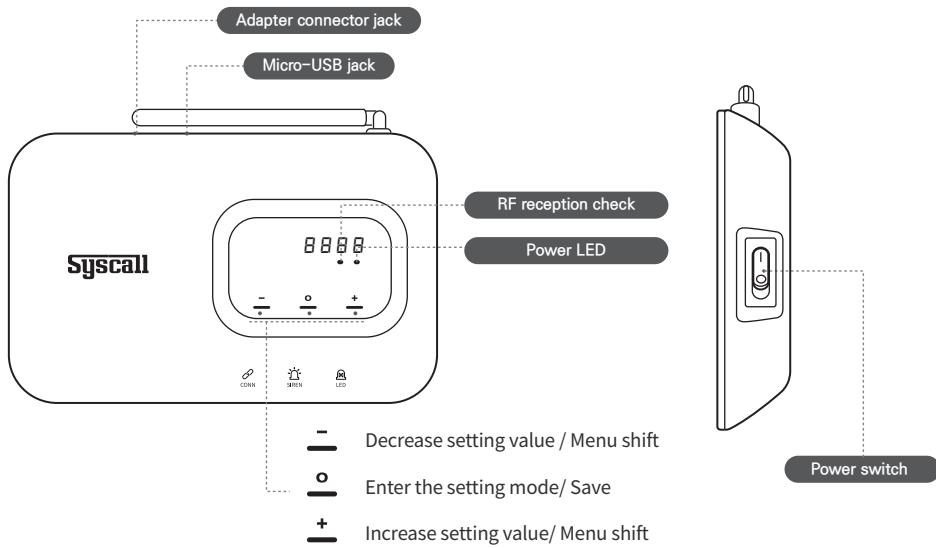

## Specification

Frequency	FSK/433.42MHz
Power Source	DC 12V/1A
Dimension	W159 X L110 X H23mm
Weight	150g
Color	Black

## Features

1. Enhance the signal coverage between the products
2. Easy to set up with touch switches
3. Available in registration or non-registration mode
4. Compatible with all Syscall products

## 2. Product Overview

## Description of Functions

No.	Functions	Default	Range
R1	1 Button Bell Registration	-	Up to 4 digits
R2	3 Button Bell Registration	-	Up to 4 digits
R3	Clear Bell Registration	-	Up to 4 digits
R4	Delete the Registered 1 Button Bell	-	Up to 4 digits
R5	Delete the Registered 3 Button Bell	-	Up to 4 digits
R6	Delete the Registered Clear Bell	-	Up to 4 digits
R7	Display Time Setting	10	1~3600sec / 0000: Stay displayed
R8	Rolling Mode Setting	0	0(OFF), 1(Rolling mode)
R9	Ringtone ON/OFF Setting	0	0(OFF), 1(ON)
b1	Registration Type Setting	0	0(Non-registration mode), 1(Registration mode)
b2	Bell Reception Mode ON/OFF	1	0(OFF), 1(ON)
b3	Repeater Time Setting	1	1~60step (1step=0.5sec)
b4	The number of Repeat Setting	1	1~10
b5	Delay Time Setting	10	1~180sec
b6	Protocol Version Setting	2	2(For call button signal), 3(For ST/DT-5020 signal)
b7	Repeater Number Setting	0	0~120
c1	Channel Number Setting	0	0~15
c2	Group Number Setting	0	0~99
c3	ST-5020 Reception Mode ON/OFF	0	0(OFF), 1(ON)
c4	ST-5020 Repeater Mode ON/OFF	0	0(OFF), 1(ON)
c5	Repeater Time Setting	1	1~60step (1step=0.5sec)
c6	The number of Repeat Setting	1	1~10
c7	Delay Time Setting	10	1~180sec
d1	Channel Number Setting	0	0~99
d2	DT-5020 Reception Mode ON/OFF	0	0(OFF), 1(ON)
d3	DT-5020 Repeater Mode ON/OFF	0	0(OFF), 1(ON)
d4	Repeater Time Setting	1	1~60step (1step=0.5sec)
d5	The number of Repeat Setting	1	1~10
d6	Delay Time Setting	10	1~180sec
P1	Channel Number Setting	0	0~99
P2	Group Number Setting	0	0~99
P3	GP Reception Mode ON/OFF	1	0(OFF), 1(ON)
P4	GP Repeater Mode ON/OFF	1	0(OFF), 1(ON)
P5	Repeater Time Setting	1	1~60step (1step=0.5sec)
P6	The number of Repeat Setting	1	1~10
P7	Delay Time Setting	10	1~180sec

No.		Default	Range
E1	Firmware Version Information	-	
E2	Repeater Output Power Control	2	1(Minimum), 2(Normal)
E3	RF Output Check	0	0(Carrier signal), 1(Modulating signal)
E4	Rebooting	-	
E5	Initialization	-	

### 3. Call Bell Registration & Deletion

**⚠ Caution!** As the default setting of the device is Non-registration mode\*, it is not necessary to set up the following 3.1 [A1] to 3.6 [A6].

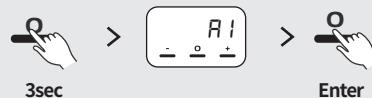

You can set it as Registration mode\*\* in Registration Type Setting [b1].  
(Please refer to page 8.)

\*Non-registration mode : Repeats all call bells' signal

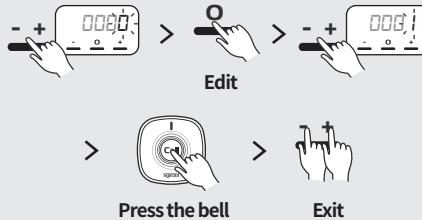

\*\*Registration mode : Repeats only the signal of call bells which are registered from [A1] to [A3]

#### 3-1. [A1] 1 Button Bell Registration

1. Touch and hold **O** for 3sec until “A1” is displayed.

2. Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the call bell number by tapping **-** or **+**, and then press the bell.

5. Tap **-** & **+** together to exit from the setting mode.

Press the bell

Exit

### 3-2. [A2] 3 Button Bell Registration

1. Touch and hold **O** for 3sec until “A1” is displayed.

2. Tap **+** once and then, Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the call bell number by tapping **-** or **+**, and then press the bell.

\*Register only 1 button from 3 button bell, then the other buttons will be automatically registered.

5. Tap **-** & **+** together to exit from the setting mode.

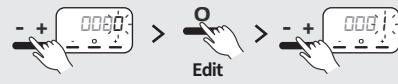

### 3-3. [A3] Clear Bell Registration

1. Touch and hold **O** for 3sec until “A1” is displayed.

2. Tap **+** twice and then, Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the clear bell number by tapping **-** or **+**, and then press the bell.

5. Tap **-** & **+** together to exit from the setting mode.

### 3-4. [A4] Delete the Registered 1 Button Bell

1. Touch and hold **O** for 3sec until “A1” is displayed.

2. Tap **+** 3-times and then, Tap **O** to enter the setting mode.

3. The number of registered call bells will be displayed on the screen.

4. Press the bell which you want to delete. If succeed, the number on the screen will be decreased.

The number of registered call bells

5. Tap **-** & **+** together to exit from the setting mode.

### 3-5. [A5] Delete the Registered 3 Button Bell

1. Touch and hold **O** for 3sec until “A1” is displayed.

2. Tap **+** 4-times and then, Tap **O** to enter the setting mode.

3. The number of registered call bells will be displayed on the screen. (ex. 0006=2pcs of 3 button bell)

4. Press the bell which you want to delete. If succeed, the number on the screen will be decreased.

\*Press only 1 button from 3 button bell, then the other buttons will be automatically deleted as well.

5. Tap **-** & **+** together to exit from the setting mode.

### 3-6. [A6] Delete the Registered Clear Bell

1. Touch and hold **O** for 3sec until “A1” is displayed.

2. Tap **+** 5-times and then, Tap **O** to enter the setting mode.

3. The number of registered clear bells will be displayed on the screen.

4. Press the bell which you want to delete. If succeed, the number on the screen will be decreased.

5. Tap **-** & **+** together to exit from the setting mode.

### 3-7. [A7] Display Time Setting

1. Touch and hold **O** for 3sec until “A1” is displayed.

2. Tap **+** 6-times and then, Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

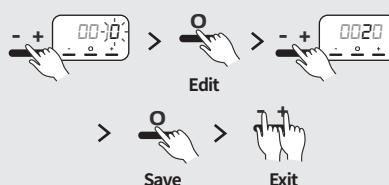

4. Set the display time by tapping **-** or **+**.

\*Range: 1~3600sec [Default: 10sec]

\*0000: Stay displayed

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

## 4-5. [b5] Delay Time Setting

Ignore the same bell signals during the delay time.

1. Touch and hold **O** for 5sec until “b1” is displayed.

2. Tap - 3-times and then, Tap **O** to enter the setting mode.

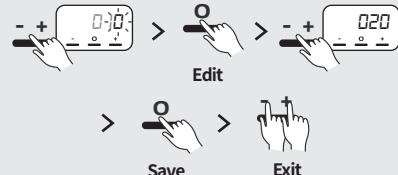

3. Move to the next digit by tapping - or +, then tap **O** to enter the edit mode.

4. Set the time by tapping - or +.

\* Range: 1~180sec [Default: 10]

5. Touch and hold **O** for 2sec to save.

6. Tap - & + together to exit from the setting mode.

## 4-6. [b6] Protocol Version Setting

Set the version for SRT-8200\_PC only, when connecting with the software.

1. Touch and hold **O** for 5sec until “b1” is displayed.

2. Tap - twice and then, Tap **O** to enter the setting mode.

3. Select '2' or '3' by tapping - or +.

\* 2: For call button signal (ex. Monitoring SW)

3: For ST/DT-5020 signal (ex. Server paging SW)  
[Default: 2]

4. Touch and hold **O** for 2sec to save.

5. Tap - & + together to exit from the setting mode.

## 4-7. [b7] Repeater Number Setting

Assign the number to repeater in order.

1. Touch and hold **O** for 5sec until “b1” is displayed.

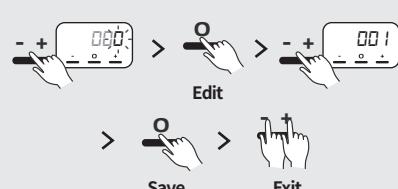

2. Tap - once and then, Tap **O** to enter the setting mode.

3. Move to the next digit by tapping - or +, then tap **O** to enter the edit mode.

\* Range: 0~120 [Default: 0]

5. Touch and hold **O** for 2sec to save.

6. Tap - & + together to exit from the setting mode.

## 5. ST-5020 Repeater Setting

### 5-1. [C1] Channel Number Setting

Set the same Pn of both SRT-8200 and ST-5020.

1. Touch and hold **O** for 7sec until “C1” is displayed.

2. Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the channel number by tapping **-** or **+**.

\* Range: 0~15 ('0'=Receive all Pn) [Default: 0]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

### 5-2. [C2] Group Number Setting

Set the same Gn of both SRT-8200 and ST-5020.

1. Touch and hold **O** for 7sec until “C1” is displayed.

2. Tap **+** once and then, Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the group number by tapping **-** or **+**.

\* Range: 0~99 ('0'=Receive all Gn) [Default: 0]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

### 5-3. [C3] ST-5020 Reception Mode ON/OFF

1. Touch and hold **O** for 7sec until “C1” is displayed.

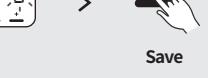

2. Tap **+** twice and then, Tap **O** to enter the setting mode.

3. Select '0' or '1' by tapping **-** or **+**.

\* 0: OFF / 1: ON [Default: 0]

4. Touch and hold **O** for 2sec to save.

5. Tap **-** & **+** together to exit from the setting mode.

## 5-7. [C7] Delay Time Setting

Ignore the same ST-5020 signals during the delay time.

1. Touch and hold **O** for 7sec until “C1” is displayed.

2. Tap **-** once and then, Tap **O** to enter the setting mode.

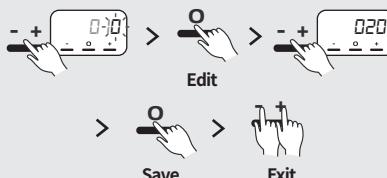

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the time by tapping **-** or **+**.

\* Range: 1~180sec [Default: 10]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

## 6. DT-5020 Repeater Setting

### 6-1. [d1] Channel Number Setting

Set the same Pn of both SRT-8200 and DT-5020.

1. Touch and hold **O** for 9sec until “d1” is displayed.

2. Tap **O** to enter the setting mode.

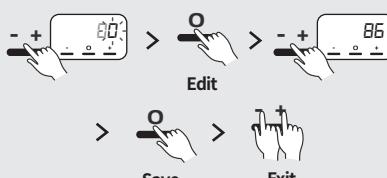

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the channel number by tapping **-** or **+**.

\* Range: 0~99 ('0'=Receive all Pn) [Default: 0]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

### 6-2. [d2] DT-5020 Reception Mode ON/OFF

1. Touch and hold **O** for 9sec until “d1” is displayed.

2. Tap **+** once and then, Tap **O** to enter the setting mode.

3. Select '0' or '1' by tapping **-** or **+**.

\* 0: OFF / 1: ON [Default: 0]

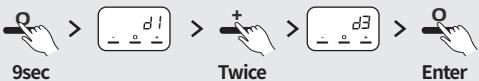

4. Touch and hold **O** for 2sec to save.

5. Tap **-** & **+** together to exit from the setting mode.

### 6-3. [d3] DT-5020 Repeater Mode ON/OFF

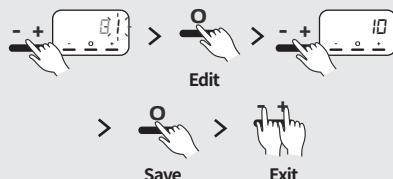

1. Touch and hold **O** for 9sec until “d1” is displayed.
2. Tap **+** twice and then, Tap **O** to enter the setting mode.
3. Select ‘0’ or ‘1’ by tapping **-** or **+**.  
\*0: OFF / 1: ON [Default: 0]  
\* If choose ON, DT-5020 Reception Mode [d2] should be ON as well.
4. Touch and hold **O** for 2sec to save.
5. Tap **-** & **+** together to exit from the setting mode.

### 6-4. [d4] Repeater Time Setting

Set the repeater as whether repeats immediately or after some delays.

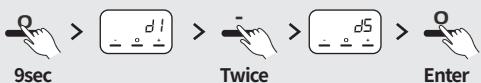

1. Touch and hold **O** for 9sec until “d1” is displayed.
2. Tap **+** 3-times and then, Tap **O** to enter the setting mode.
3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.
4. Set the repeater delay time by tapping **-** or **+**.  
\* Range: 1~60step (1step=0.5sec), [Default: 1]
5. Touch and hold **O** for 2sec to save.
6. Tap **-** & **+** together to exit from the setting mode.

### 6-5. [d5] The number of Repeat Setting

Set the number of repeats.

1. Touch and hold **O** for 9sec until “d1” is displayed.
2. Tap **-** twice and then, Tap **O** to enter the setting mode.
3. Tap **O** to enter the edit mode.
4. Set the number of repeats by tapping **-** or **+**.  
\* Range: 1~10 [Default: 1]
5. Touch and hold **O** for 2sec to save.
6. Tap **-** & **+** together to exit from the setting mode.

## 6-6. [d6] Delay Time Setting

Ignore the same DT-5020 signal during the delay time.

1. Touch and hold **O** for 9sec until “d1” is displayed.

2. Tap **-** once and then, Tap **O** to enter the setting mode.

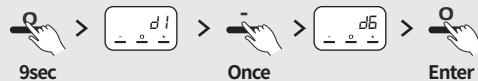

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the time by tapping **-** or **+**.

\* Range: 1~180sec [Default: 10]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

9sec

Once

Enter

Edit

Save

Exit

## 7. Guest Pager Repeater Setting

### 7-1. [P1] Channel Number Setting

Set the same Pn of both SRT-8200 and Guest pagers.

1. Touch and hold **O** for 12sec until “P1” is displayed.

2. Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the channel number by tapping **-** or **+**.

\* Range: 0~99 ('0'=Receive all Pn) [Default: 0]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

12sec

Enter

Edit

Save

Exit

## 7-2. [P2] Group Number Setting

Set the same Gn of both SRT-8200 and Guest pagers.

1. Touch and hold **O** for 12sec until “P1” is displayed.

2. Tap **+** once and then, Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the group number by tapping **-** or **+**.  
\* Range: 0-99 ('0'=Receive all Gn) [Default: 0]

Edit

5. Touch and hold **O** for 2sec to save.

Save

6. Tap **-** & **+** together to exit from the setting mode.

Exit

## 7-3. [P3] GP Reception Mode ON/OFF

1. Touch and hold **O** for 12sec until “P1” is displayed.

2. Tap **+** twice and then, Tap **O** to enter the setting mode.

Twice

3. Select '0' or '1' by tapping **-** or **+**.  
\*0: OFF / 1: ON [Default: 1]

Save

4. Touch and hold **O** for 2sec to save.

Exit

5. Tap **-** & **+** together to exit from the setting mode.

## 7-4. [P4] GP Repeater Mode ON/OFF

1. Touch and hold **O** for 12sec until “P1” is displayed.

2. Tap **+** 3-times and then, Tap **O** to enter the setting mode.

3 times

3. Select '0' or '1' by tapping **-** or **+**.  
\*0: OFF / 1: ON [Default: 1]

\* If choose ON, GP Reception Mode [P3] should be ON as well.

Save

4. Touch and hold **O** for 2sec to save.

Exit

5. Tap **-** & **+** together to exit from the setting mode.

## 7-5. [P5] Repeater Time Setting

Set the repeater as whether repeats immediately or after some delays.

1. Touch and hold **O** for 12sec until “P1” is displayed.

2. Tap **-** 3-times and then, Tap **O** to enter the setting mode.

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the repeater delay time by tapping **-** or **+**.

\* Range: 1~60step (1step=0.5sec) [Default: 1]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

## 7-6. [P6] The number of Repeat Setting

Set the number of repeats.

1. Touch and hold **O** for 12sec until “P1” is displayed.

2. Tap **-** twice and then, Tap **O** to enter the setting mode.

3. Tap **O** to enter the edit mode.

4. Set the number of repeats by tapping **-** or **+**.

\* Range: 1~10 [Default: 1]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

## 7-7. [P7] Delay Time Setting

Ignore the same Guest pager signals during the delay time.

1. Touch and hold **O** for 12sec until “P1” is displayed.

2. Tap **-** once and then, Tap **O** to enter the setting mode.

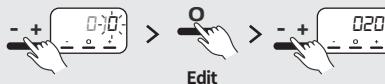

3. Move to the next digit by tapping **-** or **+**, then tap **O** to enter the edit mode.

4. Set the time by tapping **-** or **+**.

\* Range: 1~180sec [Default: 10]

5. Touch and hold **O** for 2sec to save.

6. Tap **-** & **+** together to exit from the setting mode.

## 8. Device Setting

### 8-1. [E1] Firmware Version Information

Able to check the firmware version information of the repeater.

1. Touch and hold **O** for 14sec until “E1” is displayed.

2. Tap **O** to confirm the Firmware Version Information.

3. Tap **-** & **+** together to exit from the setting mode.

Exit

### 8-2. [E2] Repeater Output Power Control

Able to set the RF output power of the repeater.

1. Touch and hold **O** for 14sec until “E1” is displayed.

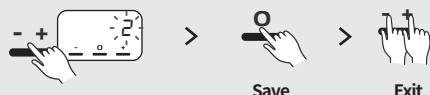

2. Tap **+** once and then, Tap **O** to enter the setting mode.

3. Set the output of the repeater by tapping **-** or **+**.

\*1: Minimum, 2: Normal [Default: 2]

4. Touch and hold **O** for 2sec to save.

5. Tap **-** & **+** together to exit from the setting mode.

Save

Exit

### 8-3. [E3] RF Output Check

1. Touch and hold **O** for 14sec until “E1” is displayed.

2. Tap **+** twice and then, Tap **O** to enter the setting mode.

3. Select ‘0’ or ‘1’ by tapping **-** or **+**.

\*0: Carrier signal, 1: Modulating signal [Default: 0]

4. Tap **O** to confirm the RF output

5. Tap **-** & **+** together to exit from the setting mode.

Save

Exit

## 8-4. [E4] Rebooting

1. Touch and hold **O** for 14sec until “**E1**” is displayed.

2. Tap **+** 3-times and then, Tap **O** to enter the setting mode.

3. Tap **O** once again for 2sec and release the button.

4. It will be rebooted after displaying the firmware version.

## 8-5. [E5] Initialization

1. Touch and hold **O** for 14sec until “**E1**” is displayed.

2. Tap **+** 4-times and then, Tap **O** to enter the setting mode.

3. Tap **O** once again for 2sec and release the button.

4. It will be rebooted after initialization.

## FCC Information

This device complies with part 15 of the FCC Results. Operation is subject to the following two conditions :

- (1) This Device may not cause harmful interface, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for CLASS B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- 1.1. Reorient or relocate the receiving antenna.
- 1.2. Increase the separation between the equipment and receiver.
- 1.3. Connect the equipment into an outlet on a circuit different from that to which receiver is connected.
- 1.4. Consult the dealer or experienced radio/TV technician for help.

## WARNING

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

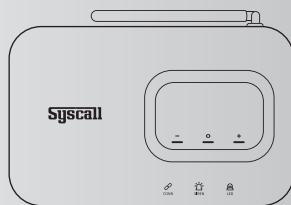

### **CAUTION : Exposure to Radio Frequency Radiation.**

Antenna shall be mounted in such a manner to minimize the potential for human contact during normal operation. The antenna should not be contacted during operation to avoid the possibility of exceeding the FCC radio frequency exposure limit.

### **IMPORTANT NOTE:**

#### FCC RF Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
