

Quick Installation Guide

WiFi Extender / Repeater
Version 1.0
NF-RE513 V2

1. The Product Description

1-1. Product Interface Indicator:

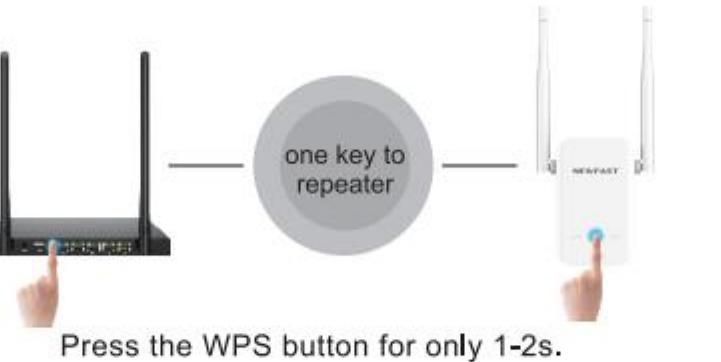

2. Repeater Mode Installation

2-1. WPS Installation:

1. Plug in, wait for the power light and WiFi light to turn on.
2. Press the WPS button on the router for 1-2 seconds. (Make sure your router has WPS function and is open)
3. Press the WPS button on the extender for 1-2 seconds.
4. Wait for about 30s, then the extender will restart automatically, the indicator will turn off then on again while connect to the router successfully.

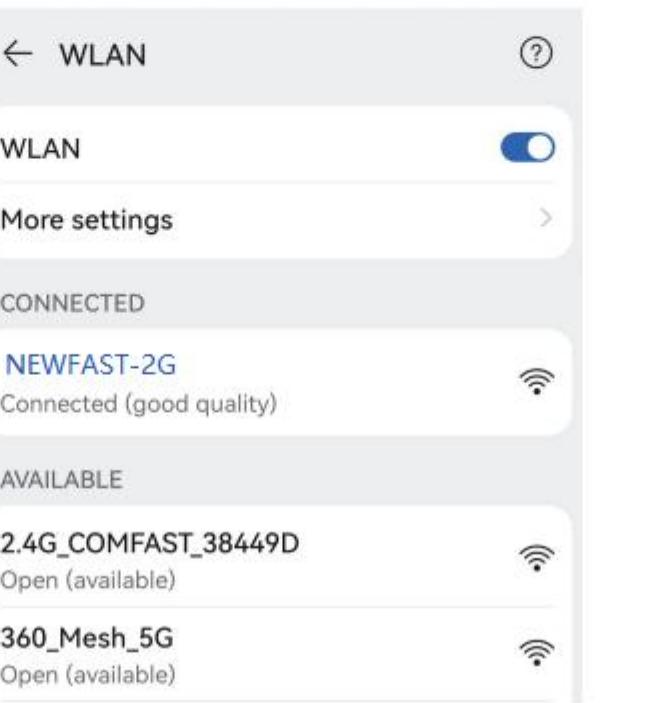

5. Connect WiFi "XXX - plus", the password is your original WiFi password.

6. Move the extender to the best position that should be in the middle of the area with a poor WiFi signal and your router. The location that you choose must be within the range of your existing WiFi router network.

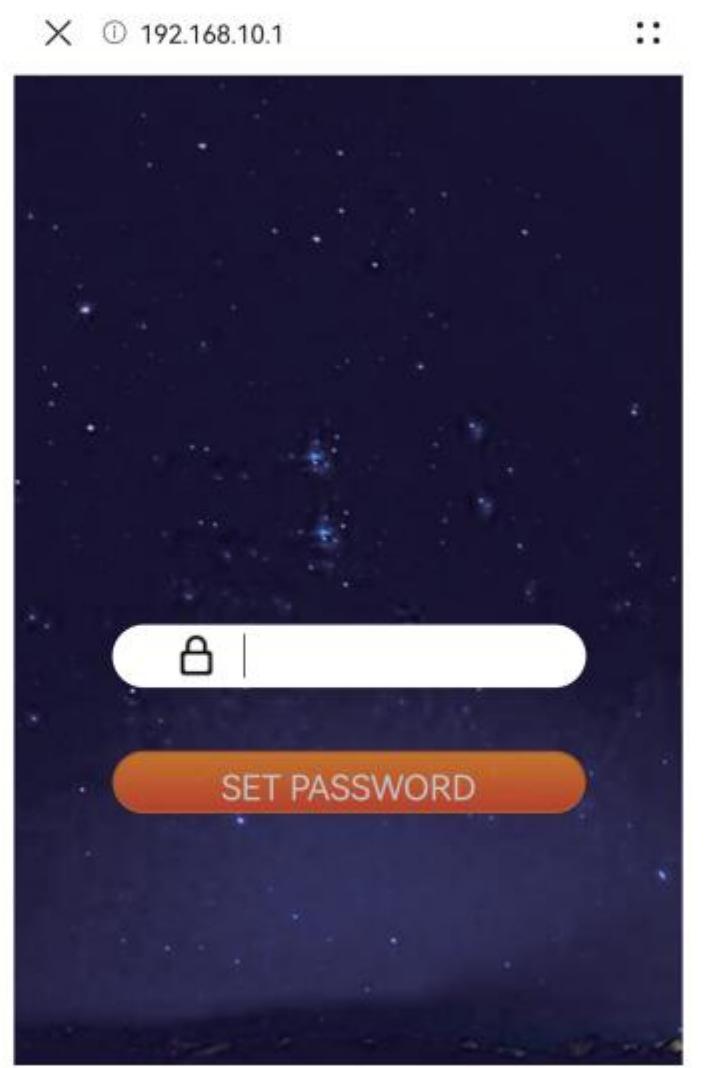

2-2. Setup with Webpage

1. Plug in, wait for the power light and WiFi light to turn on.
2. Connect WiFi "XXXXXXXXX-2G" with your smartphone or computer. (Keep your smartphone or computer being connected to the extender during the installation.)

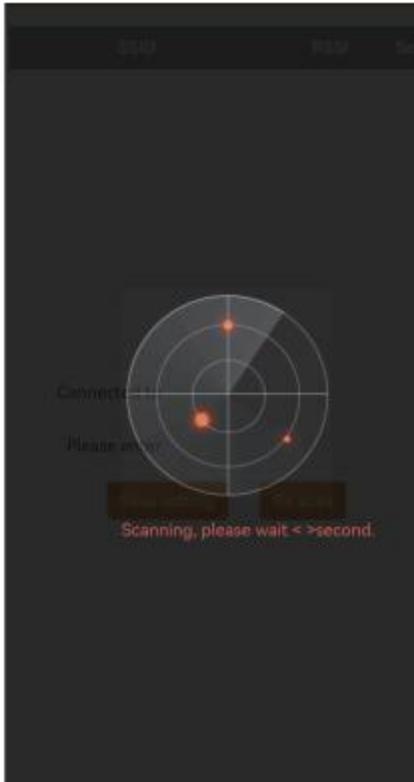

3. When the extender is setup for the first time, the configuration webpage will pop up automatically. If not, launch a web browser and enter "192.168.10.1" in the address field.

4. Enter the default password "admin" and click "SET PASSWORD" or "LOGIN".

5. It will scan the wireless network signals around. Select the WiFi you want to extend, and enter your WiFi password (Pre-Shared Key), then click the "Save setting".

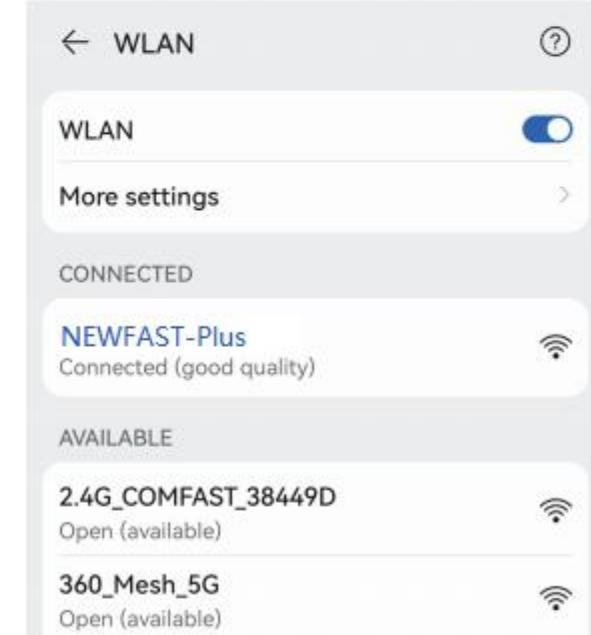

SSID	RSSI	Select
comfast-2G	-52	●
/**-1	-55	○
HONOR-510A7K	-58	○
COMFAST_XR11_2.4G	-60	○
TP-LINK_9A7E68	-62	○
NEWFAST-Plus	-65	○

Note : After setting up, the wireless password is the same as the comfast-2G password

Save setting Re-scan

6. After the setup is complete, it will reboot automatically. Then connect WiFi "XXX - plus"(your new extender SSID), the password is your original WiFi password, and enjoy the WiFi.

3. FAQ

Q1: Can not access to internet after setting?

A1: If the red light flashes after setting, it means that the setting failed. Please check whether the entered password is correct. If not, please reset and enter the correct password.

Q2: Low speed after setting?

A2: Please check the status of the WiFi indicators:

Blue—Strong signal

Red—Weak signal (The distance between router and repeater is too far, please adjust the position of the WiFi repeater.)

Q3: How to reset?

A3: Press the reset button for 6-7 seconds, then release the button, wait until the wifi indicator lights up blue, and finally the blue light goes off.

Please check whether the initial WiFi XXXXXXXX-2G appears in the WIFI list, if the initial WiFi XXXXXXXX-2G appears, it means the reset is successful. (Note: If the reset fails, please unplug the repeater and plug it in again.)

Warning

1. Use the product safely to prevent Electric shock risk.
2. Do not use in humid environment.
3. Use supporting power supply to prevent product damage.
4. Use the product safely to prevent inflammable and explosive risks.

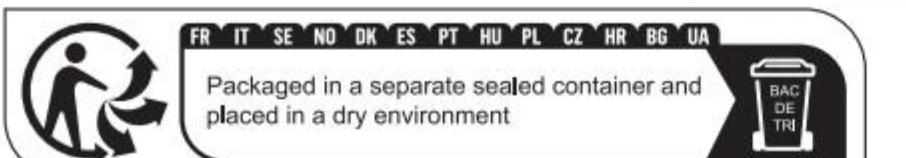

Maintenance Regulations

Dear Valued Clients,

Thank you for purchasing products. To protect your rights and interests in after-sales service, please read the following maintenance regulations.

The following does not belong to free maintenance, our company can provide paid service, please note:

- Damage resulting from improper installation/mounting, improper use or storage of the product, or failure to observe the operating instructions and safety notes;
- Beyond the limited warranty;
- Unauthorized alteration, tearing up the product bar code;
- Without authorization to change the settings file or recompilation;
- Unexpected factors or human actions lead to product damage, such as improper input voltage, temperature, water mechanical damage, break, rust or oxidation serious, etc;
- Other failures or damages not caused by product's design, technology, manufacturing, quality, etc.

ISED Statement

English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The digital apparatus complies with Canadian CAN ICES-3 (B)/NMB-3(B).

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada.

L'exploitation est soumise aux deux conditions suivantes :

- (1) Cet appareil ne doit pas provoquer d'interférences.
- (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

l'appareil numérique du ciem conforme canadien peut - 3 (b) / nmb - 3 (b).

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux

rayonnements du Canada établies pour un environnement non contrôlé.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:
The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
