

#### Speaker specifications:

1. Bluetooth Version :5.3
2. Frequency response: 100Hz-20KHz
3. Impedance: 4Ω
4. Speaker power: 5W
5. Recharge Voltage: DC 5V Built-in rechargeable Li-ion battery
6. Battery capacity: 1200mAh/ 3.7V
7. Working time: 1-2 hours
8. Working range: 10m
9. Loudspeaker: 52mm (Diameter)
10. SNR : >80dB
11. Distortion:10% less than
12. chipset: AC6969D

#### Operation method

1. Turn on : Long press ON/OFF button
2. Turn off : Long press ON/OFF button CUB light : short press ON/OFF to turn on / turn off
3. Long press " + " : volume up
4. Short press " + " : previous song
5. Long press " \_ " : volume down
6. Short press " \_ " : next song
7. Charging your phone by wireless charger: Connect the speaker to an appropriate power source using the supplied cable. When the indicator light is RED, the speaker is charging. The indicator light goes off when the device is fully charged.

8. Turn on: Press and hold the ON/OFF button for about 3 seconds. The indicator light turns blue, showing that it's ready to be paired. Make sure that the BT mode on your mobile device is switched on. Please select "#25185" to pair your device with the speaker.

**Warnings:**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

**RF Exposure Statement (Wireless Charger)**

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance of 20cm the radiator your body.

**RF Exposure Statement (Bluetooth)**

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
