This device complies with Part 15 of the FCC Rules. Operation  
is subject to the following two conditions:  
(1) This device may not cause harmful interference, and (2)  
this device must accept any interference received, including  
interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply  
with the limits for a Class B digital device, pursuant to part 15  
of the FCC Rules. These limits are designed to provide  
reasonable protection against harmful interference in a  
residential installation. This equipment generates, uses and  
can radiate radio frequency energy and, if not installed and  
used in accordance with the instructions, may cause harmful  
interference to radio communications. However, there is no  
guarantee that interference **will** not occur in a particular  
installation. If this equipment does cause harmful interference  
to radio or television reception, which can be determined by  
turning the equipment off and on, the user is encouraged to try  
to correct the interference by one or more of the following  
measures:  
- Reorient or relocate the receiving antenna.  
- Increase the separation between the equipment and receiver.  
- Connect the equipment into an outlet on a circuit different  
from that to which the receiver is connected.  
- Consult the dealer or an experienced radio/TV technician for  
help.

NOTE 2: Any changes or modifications to this unit not  
expressly approved by the party responsible for compliance  
could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure  
requirement. The device can be used in portable exposure  
condition without restriction.
