## Mibro Earbuds 3 User Manual

mibro

Thank you for choosing our product, hope the fashionable appearance and high quality stereo can enrich your life.

Note: After you receive this product, please tear off the insulation film of the earphone charging pin, charge the earphone for 10 minutes before taking it out and using.

### Product Overview

### Charging

Please put the buds into the box before the first use, and connect the charging cable with the charging box to fully charge.

Put the buds into the corresponding slot to ensure that the charging contact of the buds contacts the metal sheet.

The white light is always on when the buds are charging.

When the buds indicator is off, the battery is fully charged.

When the charging case shows a number less than 10, charge the charging case at this time.

Connect USB adapter to charge it (charging current shall not exceed 1A).

If it is not used for a long time, it shall be charged at least once every three months.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
