

110 mm

Bamboo 10W Wireless Charging Base with Dry Erase Board

Item No.:32504

Product Overview:

- 1 Charging area
- 2 Indicator Light
- 3 TYPE-C
- 4 Instruction sheet
- 5 TYPE-C Charging Cable

Specifications:

Input: 5V 2A, 9V 1.67A
Wireless Output: 5V 1A, 9V 1.1A
Working distance: 6mm
Working efficiency ≥63%

Magnetic alignment suitable for compatible devices only.
Compatible with Qi enabled devices

90 mm

Operation:

1. Connect the USB-C cable to the wireless charging pad. Connect the USB-A cable into your computer port or adapter (not included).
2. Put your Qi compatible device on top of the wireless charger, ensuring that it is face up and centrally positioned.
3. When the wireless charge is working correctly a white light of the USB connector will light up.

Note: If your phone has a protective case you may need to remove it for a successful connection when using the wireless charger.

Warnings:

1. Do not expose this product to rain or damp conditions.
2. Prevent this item from falling as it could cause serious damage.
3. Do not dismantle, repair or modify this product by yourself, contact an authorized specialist.
4. In order to avoid any risk, do not dispose of this product inappropriately or throw it into the fire.
5. Clean it with a dry cloth.
6. Do not place this item near sources of heat or expose to direct sunlight.
7. Do not insert any metal objects into this device as there is a risk of causing a short circuit in the unit.
8. To avoid risk, do not place any metal objects between the charger and the mobile device during the charging process.
9. Do not use this charger if your device is in a metal protective case. Remove device from metal protective case before using this charger.
10. Keep out of reach of children.
11. Using your phone while charging it can cause higher temperatures.
12. Never store or use this product in temperatures below 32 °F (0 °C) or above 115 °F (45 °C)

90 mm

FCC Statement:

This device complies with Part 18 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference
- (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This device must operate with a minimum distance of 20 cm between the radiator and user body.
