

Dear FCC

Please find my comments to your inquiry as below.

The Commission has determined that the information in this application for Agent for Service of Process (ASOP) is invalid and/or the listed agent does not exist. Please provide a valid ASOP with a physical address in the United States.

A new ASOP is chosen by the applicant and the appropriate information is updated in the filing.

Also, both the TCB and Applicant/Grantee need to provide an explanation as to how the original and new ASOP information was validated to be an ASOP. According to 2.911 (d)(7) of the Commission rules, the applicant/grantee is required to designate an ASOP located in the United States for the purpose of accepting service of process on behalf of the applicant. Please be advised that we may seek additional information in our review of your application, but this notice regards the information you provided for Agent for Service of Process. In addition, please ensure the following three points are addressed in your response along with an explanation about how they were verified when providing a new ASOP information:

1. Is the address of the agent a valid physical US mailing address (not a US post office box, not a virtual mailbox, not P.O. Boxes, not a vacant lot, not a public building, etc.)

We used a google maps search to find the address and verify the restrictions as above.

2. Is the agent physically located at that valid US address such that the agent can be legally served at that address?

We contacted the agent via phone to verify this point.

3. Has the listed agent clearly agreed in writing to serve as the agent for the grantee at that address?

A signed agreement between the applicant and the local agent exists, is uploaded to the FCC webportal and is part of the internal documentation stored at the TCB.

We hope to completely fulfil the requirements of the rules with the actions above but are happy to receive any further advice or guidance.

Mit freundlichen Grüßen / Kind regards / Meilleurs salutations
Oliver Kneip
