

Information to User

[1] For relevant electronic devices or peripheral devices, the instructions provided to users include the following or similar instructions:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

[2] Changes or modifications that are not explicitly approved by the regulatory responsible party may invalidate the user's device operation permissions. The example content is as follows:Important:

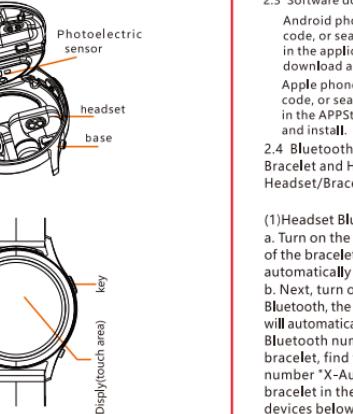

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

1 Appearance Description

1.1 Overall Introduction

1.2 Packing List

Bracelet strap x1, Charging cable x1, Packing box x1, Bluetooth headset x1, Spare headphone head X2, User guidex1

2 Instructions to Initial Use

2.1 Introduction to Device Function Interface

After booting, enter the time interface, swipe up, down, left and right to enter the corresponding menu.

2.2 In the main interface state, press the key to enter the submenu, and three styles are available.

2.3 Software download, install APP:

Android phones can scan the QR code, or search for "FitCloudPro" in the application market to download and install.

Apple phones can scan the QR code, or search for "FitCloudPro" in the APPStore to download and install.

2.4 Bluetooth Connection between Bracelet and Headset

(This device is dual Bluetooth connection, Headset/Bracelet need to be connected once both.)

(1)Headset Bluetooth connection is as follows.

- Turn on the Bluetooth of the bracelet: Take the headset out of the bracelet, and the Bluetooth of the bracelet will automatically turn on.
- Next, turn on the phone, click Settings, turn on Bluetooth, the phone's Bluetooth will automatically search for the bracelet, find the Bluetooth number "X-Audio-i" of the bracelet in the available devices below, and click to pair to complete the Headset Bluetooth connection.

2.5 Instructions and Precautions for the Use of the Headset Function

- If there is a call when the headset is in the base of the bracelet, take out the headset from the base and double-click the headset key to answer.

2.6 The Call Rejection

When there is an incoming call, the device will vibrate and display a reminder.

Long press the touch area for 3 seconds to directly reject the call, or long press the headset key for 3 seconds to reject the call.

2.7 Main Function Introduction

*Note: To ensure that the data is valid, please enter the real gender, height and skin color in the personal information of the APP.

2.8 Exercise Monitoring

Enter the exercise monitoring interface, it displays the current number of steps, distance and calories burned.

2.9 Sleep monitoring

Enter the sleep monitoring interface and it displays the total sleep time last night.

2.10 Heart Rate/Blood Pressure/Blood Oxygen Test

Switch to the heart rate/blood pressure/blood oxygen test interface, the LED light on the back of the bracelet will light up, the heart rate/blood pressure/blood oxygen test will start, and the current heart rate/blood pressure/blood oxygen value will be displayed after 1-2 minutes.

2.11 Notes on Connection and Pairing

- Ensure that the Bluetooth of the mobile phone is turned on;
- Ensure that the device has sufficient power, and please turn on or charge it before use;
- Make sure that the device is within 50cm of the mobile phone when pairing and connecting;

2.12 Software download, install APP:

Android phones can scan the QR code, or search for "FitCloudPro" in the application market to download and install.

Apple phones can scan the QR code, or search for "FitCloudPro" in the APPStore to download and install.

2.13 Bluetooth Connection between Bracelet and Headset

(This device is dual Bluetooth connection, Headset/Bracelet need to be connected once both.)

(1)Headset Bluetooth connection is as follows.

- Turn on the Bluetooth of the bracelet: Take the headset out of the bracelet, and the Bluetooth of the bracelet will automatically turn on.
- Next, turn on the phone, click Settings, turn on Bluetooth, the phone's Bluetooth will automatically search for the bracelet, find the Bluetooth number "X-Audio-i" of the bracelet in the available devices below, and click to pair to complete the Headset Bluetooth connection.

2.14 Instructions and Precautions for the Use of the Headset Function

- If there is a call when the headset is in the base of the bracelet, take out the headset from the base and double-click the headset key to answer.

2.15 The Call Rejection

When there is an incoming call, the device will vibrate and display a reminder.

Long press the touch area for 3 seconds to directly reject the call, or long press the headset key for 3 seconds to reject the call.

2.16 Main Function Introduction

*Note: To ensure that the data is valid, please enter the real gender, height and skin color in the personal information of the APP.

2.17 Exercise Monitoring

Enter the exercise monitoring interface, it displays the current number of steps, distance and calories burned.

2.18 Sleep monitoring

Enter the sleep monitoring interface and it displays the total sleep time last night.

2.19 Heart Rate/Blood Pressure/Blood Oxygen Test

Switch to the heart rate/blood pressure/blood oxygen test interface, the LED light on the back of the bracelet will light up, the heart rate/blood pressure/blood oxygen test will start, and the current heart rate/blood pressure/blood oxygen value will be displayed after 1-2 minutes.

2.20 Notes on Connection and Pairing

- Ensure that the Bluetooth of the mobile phone is turned on;
- Ensure that the device has sufficient power, and please turn on or charge it before use;
- Make sure that the device is within 50cm of the mobile phone when pairing and connecting;

2.21 Software download, install APP:

Android phones can scan the QR code, or search for "FitCloudPro" in the application market to download and install.

Apple phones can scan the QR code, or search for "FitCloudPro" in the APPStore to download and install.

2.22 Bluetooth Connection between Bracelet and Headset

(This device is dual Bluetooth connection, Headset/Bracelet need to be connected once both.)

(1)Headset Bluetooth connection is as follows.

- Turn on the Bluetooth of the bracelet: Take the headset out of the bracelet, and the Bluetooth of the bracelet will automatically turn on.
- Next, turn on the phone, click Settings, turn on Bluetooth, the phone's Bluetooth will automatically search for the bracelet, find the Bluetooth number "X-Audio-i" of the bracelet in the available devices below, and click to pair to complete the Headset Bluetooth connection.

2.23 Instructions and Precautions for the Use of the Headset Function

- If there is a call when the headset is in the base of the bracelet, take out the headset from the base and double-click the headset key to answer.

2.24 The Call Rejection

When there is an incoming call, the device will vibrate and display a reminder.

Long press the touch area for 3 seconds to directly reject the call, or long press the headset key for 3 seconds to reject the call.

2.25 Main Function Introduction

*Note: To ensure that the data is valid, please enter the real gender, height and skin color in the personal information of the APP.

2.26 Exercise Monitoring

Enter the exercise monitoring interface, it displays the current number of steps, distance and calories burned.

2.27 Sleep monitoring

Enter the sleep monitoring interface and it displays the total sleep time last night.

2.28 Heart Rate/Blood Pressure/Blood Oxygen Test

Switch to the heart rate/blood pressure/blood oxygen test interface, the LED light on the back of the bracelet will light up, the heart rate/blood pressure/blood oxygen test will start, and the current heart rate/blood pressure/blood oxygen value will be displayed after 1-2 minutes.

2.29 Notes on Connection and Pairing

- Ensure that the Bluetooth of the mobile phone is turned on;
- Ensure that the device has sufficient power, and please turn on or charge it before use;
- Make sure that the device is within 50cm of the mobile phone when pairing and connecting;

2.30 Software download, install APP:

Android phones can scan the QR code, or search for "FitCloudPro" in the application market to download and install.

Apple phones can scan the QR code, or search for "FitCloudPro" in the APPStore to download and install.

2.31 Bluetooth Connection between Bracelet and Headset

(This device is dual Bluetooth connection, Headset/Bracelet need to be connected once both.)

(1)Headset Bluetooth connection is as follows.

- Turn on the Bluetooth of the bracelet: Take the headset out of the bracelet, and the Bluetooth of the bracelet will automatically turn on.
- Next, turn on the phone, click Settings, turn on Bluetooth, the phone's Bluetooth will automatically search for the bracelet, find the Bluetooth number "X-Audio-i" of the bracelet in the available devices below, and click to pair to complete the Headset Bluetooth connection.

2.32 Instructions and Precautions for the Use of the Headset Function

- If there is a call when the headset is in the base of the bracelet, take out the headset from the base and double-click the headset key to answer.

2.33 The Call Rejection

When there is an incoming call, the device will vibrate and display a reminder.

Long press the touch area for 3 seconds to directly reject the call, or long press the headset key for 3 seconds to reject the call.

2.34 Main Function Introduction

*Note: To ensure that the data is valid, please enter the real gender, height and skin color in the personal information of the APP.

2.35 Exercise Monitoring

Enter the exercise monitoring interface, it displays the current number of steps, distance and calories burned.

2.36 Sleep monitoring

Enter the sleep monitoring interface and it displays the total sleep time last night.

2.37 Heart Rate/Blood Pressure/Blood Oxygen Test

Switch to the heart rate/blood pressure/blood oxygen test interface, the LED light on the back of the bracelet will light up, the heart rate/blood pressure/blood oxygen test will start, and the current heart rate/blood pressure/blood oxygen value will be displayed after 1-2 minutes.

2.38 Notes on Connection and Pairing

- Ensure that the Bluetooth of the mobile phone is turned on;
- Ensure that the device has sufficient power, and please turn on or charge it before use;
- Make sure that the device is within 50cm of the mobile phone when pairing and connecting;

2.39 Software download, install APP:

Android phones can scan the QR code, or search for "FitCloudPro" in the application market to download and install.

Apple phones can scan the QR code, or search for "FitCloudPro" in the APPStore to download and install.

2.40 Bluetooth Connection between Bracelet and Headset

(This device is dual Bluetooth connection, Headset/Bracelet need to be connected once both.)

(1)Headset Bluetooth connection is as follows.

- Turn on the Bluetooth of the bracelet: Take the headset out of the bracelet, and the Bluetooth of the bracelet will automatically turn on.
- Next, turn on the phone, click Settings, turn on Bluetooth, the phone's Bluetooth will automatically search for the bracelet, find the Bluetooth number "X-Audio-i" of the bracelet in the available devices below, and click to pair to complete the Headset Bluetooth connection.

2.41 Instructions and Precautions for the Use of the Headset Function

- If there is a call when the headset is in the base of the bracelet, take out the headset from the base and double-click the headset key to answer.

2.42 The Call Rejection

When there is an incoming call, the device will vibrate and display a reminder.

Long press the touch area for 3 seconds to directly reject the call, or long press the headset key for 3 seconds to reject the call.

2.43 Main Function Introduction

*Note: To ensure that the data is valid, please enter the real gender, height and skin color in the personal information of the APP.

2.44 Exercise Monitoring

Enter the exercise monitoring interface, it displays the current number of steps, distance and calories burned.

2.45 Sleep monitoring

Enter the sleep monitoring interface and it displays the total sleep time last night.

2.46 Heart Rate/Blood Pressure/Blood Oxygen Test

Switch to the heart rate/blood pressure/blood oxygen test interface, the LED light on the back of the bracelet will light up, the heart rate/blood pressure/blood oxygen test will start, and the current heart rate/blood pressure/blood oxygen value will be displayed after 1-2 minutes.

2.47 Notes on Connection and Pairing

- Ensure that the Bluetooth of the mobile phone is turned on;
- Ensure that the device has sufficient power, and please turn on or charge it before use;
- Make sure that the device is within 50cm of the mobile phone when pairing and connecting;

2.48 Software download, install APP:

Android phones can scan the QR code, or search for "FitCloudPro" in the application market to download and install.

Apple phones can scan the QR code, or search for "FitCloudPro" in the APPStore to download and install.

2.49 Bluetooth Connection between Bracelet and Headset

(This device is dual Bluetooth connection, Headset/Bracelet need to be connected once both.)

(1)Headset Bluetooth connection is as follows.

- Turn on the Bluetooth of the bracelet: Take the headset out of the bracelet, and the Bluetooth of the bracelet will automatically turn on.
- Next, turn on the phone, click Settings, turn on Bluetooth, the phone's Bluetooth will automatically search for the bracelet, find the Bluetooth number "X-Audio-i" of the bracelet in the available devices below, and click to pair to complete the Headset Bluetooth connection.

2.50 Instructions and Precautions for the Use of the Headset Function

- If there is a call when the headset is in the base of the bracelet, take out the headset from the base and double-click the headset key to answer.

2.51 The Call Rejection

When there is an incoming call, the device will vibrate and display a reminder.

Long press the touch area for 3 seconds to directly reject the call, or long press the headset key for 3 seconds to reject the call.

2.52 Main Function Introduction

*Note: To ensure that the data is valid, please enter the real gender, height and skin color in the personal information of the APP.

2.53 Exercise Monitoring

Enter the exercise monitoring interface, it displays the current number of steps, distance and calories burned.

2.54 Sleep monitoring

Enter the sleep monitoring interface and it displays the total sleep time last night.

2.55 Heart Rate/Blood Pressure/Blood Oxygen Test

Switch to the heart rate/blood pressure/blood oxygen test interface, the LED light on the back of the bracelet will light up, the heart rate/blood pressure/blood oxygen test will start, and the current heart rate/blood pressure/blood oxygen value will be displayed after 1-2 minutes.

2.56 Notes on Connection and Pairing

- Ensure that the Bluetooth of the mobile phone is turned on;
- Ensure that the device has sufficient power, and please turn on or charge it before use;
- Make sure that the device is within 50cm of the mobile phone when pairing and connecting;

2.57 Software download, install APP:

Android phones can scan the QR code, or search for "FitCloudPro" in the application market to download and install.

Apple phones can scan the QR code, or search for "FitCloudPro" in the APPStore to download and install.

2.58 Bluetooth Connection between Bracelet and Headset

(This device is dual Bluetooth connection, Headset/Bracelet need to be connected once both.)

(1)Headset Bluetooth connection is as follows.

- Turn on the Bluetooth of the bracelet: Take the headset out of the bracelet, and the Bluetooth of the bracelet will automatically turn on.
- Next, turn on the phone, click Settings, turn on Bluetooth, the phone's Bluetooth will automatically search for the bracelet, find the Bluetooth number "X-Audio-i" of the bracelet in the available devices below, and click to pair to complete the Headset Bluetooth connection.

2.59 Instructions and Precautions for the Use of the Headset Function

- If there is a call when the headset is in the base of the bracelet, take out the headset from the base and double-click the headset key to answer.

2.60 The Call Rejection

When there is an incoming call, the device will vibrate and display a reminder.

Long press the touch area for 3 seconds to directly reject the call, or long press the headset key for 3 seconds to reject the call.

2.61 Main Function Introduction

*Note: To ensure that the data is valid, please enter the real gender, height and skin color in the personal information of the APP.

2.62 Exercise Monitoring

Enter the exercise monitoring interface, it displays the current number of steps, distance and calories burned.

2.63 Sleep monitoring

Enter the sleep monitoring interface and it displays the total sleep time last night.

2.64 Heart Rate/Blood Pressure/Blood Oxygen Test

Switch to the heart rate/blood pressure/blood oxygen test interface, the LED light on the back of the bracelet will light up, the heart rate/blood pressure/blood oxygen test will start, and the current heart rate/blood pressure/blood oxygen value will be displayed after 1-2 minutes.

2.65 Notes on Connection and Pairing

- Ensure that the Bluetooth of the mobile phone is turned on;
- Ensure that the device has sufficient power, and please turn on or charge it before use;
- Make sure that the device is within 50cm of the mobile phone when pairing and connecting;
