**Declaration of hazardous substances in products**

Part name	Harmful Substances					
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
Host machine	○	○	○	○	○	○
Accessories	○	○	○	○	○	○

This form is compiled in accordance with SJ/T 11364-2014.  
 ○:Indicates that the content of the hazardous substance in all homogeneous materials of the part is in below the limit required by GB/T 26572.  
 ×: Indicates that the hazardous substance at least in a certain homogeneous material of the part exceeds The limit requirements specified in GB/T 26572, And there are currently no mature alternatives in the industry.  
 ⓘ The number in this label indicates that the environmental protection life of the product under normal use is 10 years.

**FCC Warning Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
 - Reorient or relocate the receiving antenna.  
 - Increase the separation between the equipment and receiver.  
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
 Consult the dealer or an experienced technician for help.

(1) This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
 (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been evaluated without meeting general RF exposure requirement. The device can be used in operation.
