| <h1>Magnetic Wireless Charger User Manual</h1>  | <p>Safety and Handling</p> <p>WARNING: Failure to follow these safety instructions could result in fire, Electric shock,injury,or damage to the Wireless Charger or other property. Read all the safety information below before using the Wireless Charger.</p> <p>Liquid Exposure</p> <p>Keep the Wireless Charger away from sources of liquid, such as drinks, oils. Lotions,sinks,bathtubs, and shower stalls.Protect the Wireless Charger from Dampness,humidity,or wet weather,such as rainshow, and fog.</p> <p>Power</p> <p>Provide power to the Wireless Charger using compatible Power adapters,or third-party power adapters that are compliant with Applicable country regulations and international and regional safety Standards,including the Standard for Safety of Information Technology Equipment(IEC 60950-1)and the Standard for Safety of Audio/video, Information and Communication Technology Equipment (IEC 62368-1).Other Adapters may not meet applicable safety standards, and using them could Pose a risk of death or injury.</p> <p>Recommended Power Adapter Specifications Frequency: 50 to 60 Hz, single phase Line Voltage: 100 to 240 VAC Output Voltage/Current: 5/3A, 9V/2A Minimum Power Output: 20W Output Port: USB-C</p> <p>Don't use the Wireless Charger or the USB-C power adapter in wet locations such as near a sink/bathtub, or shower stall, and don't connect or disconnect them with wet hands. Disconnect the Wireless Charger, its</p> | <p>Cable and the power adapter if any of the following conditions exists: You Want to clean the Wireless Charger or the power adapter; the power cord or plug becomes frayed or otherwise damaged; the Wireless Charger,its Cable,or the power adapter is exposed to rain,excessive moisture or liquid; or the Wireless Charger,its cable, or the power adapter has been dropped, Damaged,or you suspect that service or repair is required. When you use the USB-C power adapter, make sure the cable is fully inserted into the power Adapter before you plug the adapter into a power outlet.</p> <p>When using the Wireless Charger , remove metallic cases and avoid placing Metallic foreign objects on it (for example, keys, coins, batteries, or jewelry), as they may interfere with charging or become warm enough to cause Discomfort or injury if your skin comes into contact with them. Don't place any item with an RFID tag(for example, a contactless credit card, passport, or access card) on the Wireless Charger, because the RFID tag could be damaged.</p> <p>Prolonged Heat Exposure</p> <p>The Wireless Charger and its cable comply with the applicable surface Temperature standards and limits defined by the International Standard for Safety of Information Technology Equipment(IEC 60950-1) and the Standard for Safety of Audio/Video,Information and Communication Technology Equipment(IEC 62368-1).However, even within these limits, sustained Contact with warm surfaces for long periods of time may cause discomfort or injury. Use common sense to avoid situations where your skin is in Contact with the Wireless Charger, the power adapter, or devices on the Wireless Charger when it's operating or connected to a power source for long Periods of time. For example , don't sleep on the Wireless Charger, the power Adapter, or devices on the Wireless Charger, or place them under a blanket,</p> |

| <p>Pillow, or your body, when it's connected to a power source. It's important to Keep the Wireless Charger and the power adapter in a well-ventilated area When in use or charging. Take special care if you have a physical condition That affects your ability to detect heat against the body.</p> <p>Repairing</p> <p>Don't attempt to repair the Wireless Charger yourself. Disassembling the Wireless Charger may damage it or cause injury to you. If the Wireless Charger is damaged or malfunctions, discontinue use and contact Authorized Service Provider.</p> <p>Exposure to Radio Frequency Energy</p> <p>The Wireless Charger contains magnets and radios that emit electromagnetic fields. These electromagnetic fields may interfere with medical devices, such as pacemakers and defibrillators. Consult your physician and medical device Manufacturer for information specific to your medical device and whether you need to maintain a safe distance of separation between your medical device and the Wireless Charger. If you suspect the Wireless Charger is interfering With your medical device, stop using the Wireless Charger.</p> <p>System Specifications</p> <p>Input Voltage/Current: 5V/3A,9V/2A Wireless Output Power: 15W/10W/7.5W/5W Operating Temperature:0-35°C(32-95°F)</p> <p>[Contact Us] Customer Support E-mail: support@techhys.com WhatsApp:+86 13129576396 Facebook: @HYService Instagram: @hysofficial4</p> | <p>FCC Caution:</p> <p>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.</p> <p>If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> -- Reorient or relocate the receiving antenna. -- Increase the separation between the equipment and receiver. -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help. <p>FCC Radiation Exposure Statement</p> <p>This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.</p> <p>FCC ID: 2BB65-HYS07</p> | <p>IC Caution:</p> <p>RSS-Gen Issue 5 " & RSS-Gen numéro 5 - English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.</p> <p>Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.</p> <p>RF exposure statement: The equipment complies with IC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 10cm between the radiator and your body.</p> <p>- French: Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes: (1) Cet appareil ne doit pas causer d'interférences. (2) Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.Tout changement ou modification non expressément approuvée par la partie responsable de la conformité pourrait annuler l'autorité de l'utilisateur à utiliser l'équipement.</p> <p>Déclaration d'exposition RF: L'équipement est conforme à la limite d'exposition aux radiations de la IC établie pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 10 cm entre le radiateur et votre corps.</p> <p>IC: 30993-HYS07</p> |
