

# Smart li polymer Battery Pack

## Instruction Manual

### Product Specification

Battery Capacity : 5000mAh

Type-C Input : 5V-2A

DC Output : 5V-2A

Material : ABS+PC

Size : 77\*59\*13mm

Product weight : 110g

Conversion efficiency: 85%

### Product instructions

1. This product is used to power heating products, such as heating clothes, heating gloves, etc.
2. Long press the power button to turn on, and long press to turn off.
- 3, short press the power button after the boot can be adjusted, adjusted to see the attached table.
4. See attached table for the power display.

figure lamp status

LED display when charging	LED status	LED1	LED2	LED3	LED4
	Capacity percentage				
	0%-25%	Twinkle	Destroy	Destroy	Destroy
	25%-50%	Bright	Twinkle	Destroy	Destroy
	50%-75%	Bright	Bright	Twinkle	Destroy
	75%-99%	Bright	Bright	Bright	Twinkle
	100%	Bright	Bright	Bright	Bright

LED display when discharging	LED status Capacity percentage	LED1	LED2	LED3	LED4
	Output 100%	Bright	Bright	Bright	Bright
	Output 75%	Bright	Bright	Bright	Destroy
	Output 50%	Bright	Bright	Destroy	Destroy
	Output 25%	Bright	Destroy	Destroy	Destroy

### Bluetooth connection method

- 1、 Mobile phone scan code download APP

- 2、 After turning on the power switch of the product, operate on the APP and connect the Bluetooth to use it.

### Safety Instruction

- 1、 Please read the instructions and product surface words carefully before using.
- 2、 Please keep away from heat sources, high voltage or reachable for children when using the power bank,do not drop the product.
- 3、 Charging the power bank by USB to computer or adapter, charging time is no more than 24 hours.(Charging is finished when all indicators light and unplug the power bank).
- 4、 Please do not disassemble the product by yourself and keep away from damp place for safety.
- 5、 When out of service for long period, the power bank is better in half of power state and shouldbe stored in a dry and cold place.

6、 Waste power bank should be duly handle, do not put into fire or water.

**ISED Canada Statement:**

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation,

Science and Economic Development Canada 's licence exempt RSS(s). Operation is subject to the following two conditions:

- 1) this device may not cause interference and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

Radiation Exposure: This equipment complies with Canada radiation Exposure limits set forth for an uncontrolled environment to maintain compliance with IC's RF Exposure guidelines. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

**Déclaration du Canada:**

Ce dispositif contient un (S) émetteur (S)/ récepteur (S) exempté (S) de licence qui respecte l'innovation,

Science et développement économique Canada a exempté le ou les RSS de licence.

L'exploitation est soumise aux deux conditions suivantes:

- 1) cet appareil ne doit pas causer d'interférences et
- 2) ce dispositif doit accepter toute interférence, y compris toute interférence pouvant entraîner un fonctionnement indésirable du dispositif.

Exposition au rayonnement: cet équipement est conforme au rayonnement Canada. Les limites d'exposition fixées pour un environnement non contrôlé afin de maintenir la conformité avec les lignes directrices d'exposition aux RF d'IC. Ce dispositif et ses antennes ne doivent pas être co-localisés ni fonctionner en conjonction avec une autre antenne ou un autre émetteur.

**FCC Warning**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the

user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
