

B12 SPK User Manual

I. Product Images:

Adapter

II. Specifications:

- Distortion-limited output power: L/H: 10W+5W
- Rated audio frequency response range: 100Hz-20kHz
- Noise level: $\leq 30\text{dB (A)}$
- Rated input: 29V--3A

III. Function Description:

1. Power on by connecting the adapter; there are no startup sounds or light indicators.
2. Search for the Bluetooth name: B12 to connect.

■ Important Safety Information

- Please read this manual carefully and keep it safe.
- Use only manufacturer-specified accessories.
- Follow the installation instructions in the manual. It is recommended to use the product in an environment of 0-35°C.

- To reduce the risk of fire and electric shock, do not expose the product to rain or moisture.
- Do not use the product near water or immerse it in liquid. Avoid spilling or dripping liquids on the product.
- Do not install or use the product near any heat sources such as radiators, heaters, stoves, or other devices that generate heat.
- Do not place any water-filled containers, such as vases, on the product. Also, avoid placing any open flames, such as lit candles, on the product.
- Do not block the openings of the product or insert objects into the vents or gaps, as this may cause fire or electric shock.
- Do not force the plug into the port. Before connecting, check if the port is blocked, and ensure the plug and port match and are correctly oriented.
- To prevent children from swallowing small parts (e.g., spikes), keep accessories out of children's reach.
- This product is not a toy. Children under 14 should use it under adult supervision.
- Do not open or remove the casing for repairs, as it may expose you to dangerous voltages or other hazards.
- If the product is damaged for any reason (e.g., damaged power cord or plug, liquid spillage, exposure to rain or moisture, malfunction, or being dropped), it must be repaired by a professional technician.
- Before cleaning the product with a dry cloth, turn it off and unplug it from the power source.
- Do not use strong acids, alkalis, gasoline, alcohol, or other chemical solvents to clean the product. Use neutral solvents or water if necessary.

Using the product at high volumes may cause hearing damage. Please adjust the volume to a safe level.

Properly dispose of electronic waste. Do not discard electronic devices, components, or batteries with household waste. To prevent harmful substances from polluting the environment and harming human health, and to ensure resource recycling, please recycle the product according to local laws and regulations or contact the retailer.

Power Warnings:

- Place the product near a power outlet for easy access.

- Before operating the product, ensure the operating voltage matches the local power supply voltage, as indicated on the product's nameplate.
- For safety, unplug the product during thunderstorms or when not in use for extended periods.
- The power supply may become hot during normal operation. Ensure proper ventilation and handle with care.

Safety Warning Symbols on the Product or Power Adapter's Casing or Bottom:

This symbol warns users of uninsulated dangerous voltage inside the product's casing, which may cause electric shock.

This symbol warns users not to disassemble the product's casing, as there are no user-serviceable parts inside. For repairs, contact a qualified technician.

This symbol indicates that the product is suitable for indoor use only.

This symbol indicates that the product is CLASS I or double-insulated and does not require grounding.

Shortwave radio frequency signals emitted by wireless products may interfere with electronic and medical devices. Turn off the product in prohibited areas. Do not use the product in medical facilities, on airplanes, at gas stations, near automatic doors, fire alarm systems, or other automated devices. Do not use the product within 20cm of pacemakers or other medical devices, as radio waves may interfere with their operation.

- This product can be safely used at altitudes up to 5000 meters and in tropical climates.
- Products with grounded plugs should be connected to grounded power outlets.
- For products with detachable power cords, the plug and appliance coupler serve as the disconnection device and should remain easily accessible. For products with non-detachable power cords, the plug serves as the disconnection device and should remain easily accessible.
- Products with a full-pole switch can use the power switch as the disconnection device, which should remain easily accessible.

FCC :

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

IC:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CAN ICES-3 (B)/NMB-3(B)

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Cet équipement est conforme aux limites d'IC RSS-102 sur l'exposition aux radiations qui sont déterminées pour un environnement non contrôlé. Cet équipement doit être installé et utilisé en observant une distance minimum de 20 cm entre la source du rayonnement et votre corps.
