Re: Request of Change ID FCC ID: 2BBDD-TRUPIN

To Whom It May Concern:

Textron is submitting for change ID of pre-certified modules with original grant as below:

Telit Module  
FCC ID RI7ME310G1WW  
Grant date May 19<sup>th</sup> 2020

Textron will incorporate this radio module on their end device Trupin.

We attest that the equipment is electrically identical , and also be a modular device with exactly the same cellular functionality.. External and internal photos are exactly similar to the original grant. Only the model name, trade name, and FCC ID are different. The original test results are applicable and continue to be representative of this device.

☐ Cover letter giving permission from original Applicant for Change in ID are provided

Sincerely,  
  
**Imani Jenkins**  
Compliance Engineer
