

## PROFESSIONAL SPEAKER

FCC ID: 2BBFBMPD18XB  
MADE IN CHINA

Before using this machine, please read all the safety and operating instructions, meanwhile, please observe all the indications about safe operating. These safety and operating instructions should be kept in condition of consultation.

1. Protection of electric wire supply line: Be aware that the electric power supply line is not trapped, pressed by heavy objects. Pay special attention to the plug of power supply line and outlet on the machine. DO NOT lengthen the electric shock. DO NOT pull or drag or the power supply line. 2. Ventilation: Ventilate the machine in a well-ventilated room. Do not use the machine in a room where the distance away from the wall should not be less than 10 centimeters. DO NOT put this set on the bed, sofa, carpet or other objects with similar surface in case of good ventilation.
3. Casing Dismantling: DO NOT dismantle the casing. If one touches the inner components, he will probably get serious electric shock.
4. Unusual smell and smoke: If you detect an unusual smell and smoke, cut power supplies immediately and pull out the plug from the outlet on the wall. Contact the sell shop or nearest repairing center.

Attention: This set applies to AC 110V / 50Hz~60Hz power supply. Use standard power supply.  
Please be sure for the correct power supply before use it.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Caution:** Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
