FOC WARNING

The device complies with part 2 of the FCC Rule. Operation is subject to the following two conditions:

1. The device may not cause harmful interference, and
2. The device must accept any interference that may be received.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and it may interfere with some electronic equipment, if it is not properly installed and used according to the instructions. However, there is no guarantee that interference will not occur in a particular installation. If interference does occur, you may wish to consult the following suggestions, which should help you to correct the problem:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and antenna.
- Connect the equipment to a power outlet on a circuit different from that to which the interferer is connected.
- Consult the dealer or an experienced radio/television technician for help.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance may void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirements.

This equipment complies with FCC RF exposure limits based on an uncontrolled environment. This device and its accessories must not be co-located or in conjunction with any other antenna or transmitter.
