7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

GI Bionics, LLC, hereby requests a Permissive Change Class II of the radio equipment certification for the Fecobionics 100 Data Hub certification number, FCC ID: 2BBFTDH100WF01. This product differs from the originally approved product in the following manor:

- (a) Associated digital circuitry – No changes to WiFi module
- (b) Antenna Characteristics – No change to integrated PCB antenna
- (c) Change in RF exposure assessment – mobile to portable

I do attest that the maximum rated power for mobile RF exposure configurations remains unchanged. This PCII addresses firmware power level settings for a specific portable RF exposure configuration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ghassan Kassab'.
