» Function Instruction:

反面

140*210 MM

» Mounting:

Easy to Install, simply attach the magnet to the surface of the steel.

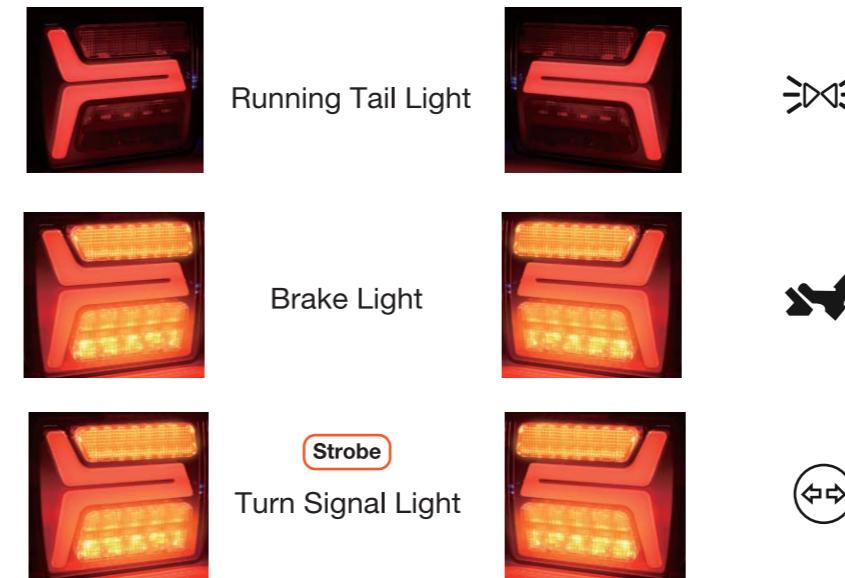

NOTE:

1. Before using, Please connect the included 7-to-4 plug with the 7-way or 4-way plug on your vehicle, and then short press to turn on the 7 to 4 way signal transmitter button of each light.
2. These light kits are suitable for vehicles with 4-wire tail light systems only (turn signals and brake light are on the same wire). It will not work for vehicles with 5 wire tail light system. Please double-check your trailer wiring plug connector before installation.

» Testing:

Check if the lights work correctly before each use.

» Specification:

Input Voltage: DC5V	Input Current: 2A
Working Voltage: DC10-30V	Radio Communication Range: 30Meters
Battery Capacity: 2600MAH	Charging Time: 3Hours
Waterproof Rate: IP67	Operating Temperature: -25 C-65 C
100% Battery working time: 10 hours	

» Dimension:

Battery Life:

The data of endurance of battery is for your reference, the it depends on the road condition and driving habit.

Important Note:

1. Fully charge the battery before use.
2. Check the battery life before use.
3. Check if the lights work correctly before each use.
4. Charge the battery every 6 months if not in use.
5. Check lights regularly when use for long hours.
6. Replaced lights need to be reset and paired.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum 20cm distance between the radiator and your body: Use only the supplied antenna.
