## **Contents Checklist**

CONTENTS	
Device	×1
USB Cable	×1
Adapter	×1
Paper Roller	×1
BASE(optional)	×1

After unpacking your terminal, please verify all items are included in the package. If any components are missing, please contact customer service immediately.

Note: Please use thermal printing paper with a thickness

# Usage and Safety Guidelines 🛕

## **Water Protection Guidelines**

- 1. Always power off the device before cleaning.
- 2. Use only non-corrosive cleaning agents.
- 3. Never submerge the device in water or any liquid.
- 4. Take care to prevent water or cleaning solution from entering the card reader or keypad.

## **Lithium Battery Safety Guidelines**

- 1. Handle batteries with care improper handling may cause
- 2. Only use the provided adapter to charge the battery.
- 3. Keep the battery away from water, liquids, fire, and high
- 4. Do not puncture, crush, or strike the battery with sharp or

- 4. Do not puncture, crush, or strike the battery with sharp or hard objects.
- 5. To maintain battery capacity, charge the device regularly (every 3-6 months is recommended)
- 6. Replace the battery immediately if it:
- · Shows any deformation (such as bulging)
- Has physical damage
   Leaks any substance
- · Produces unusual odors
- 7. Replace the battery every 2-3 years, even if it appears to be functioning normally.
- 8. Dispose of used batteries according to local environmental

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

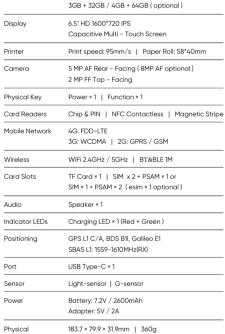

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

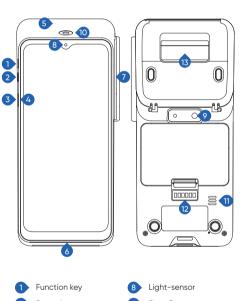

-Consult the dealer or an experienced radio/TV technician for help. Note: This equipment has been tested and found to comply with the limits

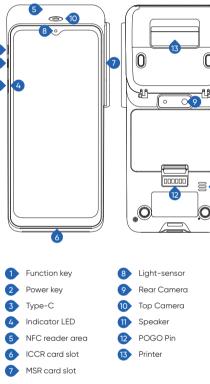

The device has been tested and comply with FCC SAR limits. For body mode, please keep the device minimum 10mm when normal use.
