

Anpassen des Gerätes an die Sendefrequenz

Frequenz-Paarung:
Dieses Spielzeug verwendet 2.4GHz-Fernbedienung, vor dem Spielen die Fernsteuerung und LKW müssen zu koppeln

- Schalten Sie den Schalter des Staplers EIN
- Schalten Sie innerhalb von 5 Sekunden den Sender ein

An diesem Punkt wird die Fernbedienung mit dem Fahrzeug gekoppelt und die Lichter der Fernsteuerung hören auf zu blinken. Das Spielzeug ist nun einsatzbereit

Sicherheit und Wartung der Batterie

Hinweise und Vorsichtsmaßnahmen zur Verwendung der Batterie

- Die Batterien müssen mit der richtigen Polarität eingeleitet werden. Machen Sie nicht verschiedene Batterien oder neue und gebrauchte Batterien
- Nur die empfohlenen Batterien oder Batterien vom Typ AA können mit dem Fahrzeug verwendet werden
- Die Verbindungsklemme darf nicht kurzgeschlossen werden
- Entladene Batterien müssen aus dem Fahrzeug entfernt werden
- Nicht wiederaufladbare Batterien dürfen nicht geladen werden
- Der Benutzer muss regelmäßig auf die Beschädigung des Kabells, des Steckerges und der zugehörigen Teile untersucht werden. Im Falle einer solchen Beschädigung ist die Verwendung einzustellen. Bei der Verwendung des Spielzeugs ist die Anwesenheit des Controllers nicht ab, da die Spielzeug nicht sicher sein kann, wenn die Batterien nicht richtig eingesetzt werden
- Das RC-Auto sollte in 1,5 V AA Alkali-Batterien (nicht wiederaufladbare) verwendet werden
- Der RC-Controller sollte 4 x 1,5 V AA Alkali-Batterien (nicht wiederaufladbare) verwenden

Installation et chargement des piles de l'appareil

Les instructions d'installation des piles de la voiture :
Ouvrez le compartiment des piles, insérez 5 piles AA 'AA' de 1,5 V et refermez le compartiment

Régla de la direction

Installation des piles de l'émetteur

Instructions d'installation des piles de la télécommande :
Ouvrez le compartiment des piles de la télécommande, installez 4 piles 'AA' de 1,5 V, refermez le compartiment des piles et serrez les vis

Deux modes
Mode I - Mode de pilotage normal
Mode II - Mode de pilotage par vibration

Lorsque le témoin lumineux de la télécommande n'est pas allumé, cela indique que les piles sont faibles, remplacez-les.

Dynamische Manipulation

Schalten Sie in D für Drive
Lenkrad vibriert stark

Schalten Sie in R für den Rückwärtsgang
Lenkrad weiche Vibration

Manipulación dinámica

Cambio a D para conducir
Vibración fuerte del volante

Cambio a R para ir en reversa
Volante con vibración suave

INSTALACIÓN Y CARGA DE LA BATERÍA DEL DISPOSITIVO

Instrucciones de instalación de la batería del vehículo:
Abra la tapa del compartimiento de las baterías, instale 5 baterías 'AA' de 1,5 V y cierre la tapa

Ajuste de la dirección

INSTALACIÓN DE LAS BATERÍAS DEL TRANSMISOR

Instrucciones de instalación de la batería del mando remoto:
Abra la tapa del compartimiento de las baterías del mando remoto, instale 4 baterías 'AA' de 1,5 V, cierre la tapa y apriete los tornillos

Dos modos de conducción
Mode I - Modo de conducción normal
Mode II - Modo de control de la gravedad

Cuando la luz indicadora del mando remoto no se enciende, significa que la batería está baja y debe reemplazarse.

ENLAZAMIENTO DEL DISPOSITIVO CON LA FRECUENCIA DEL TRANSMISOR

Enlazamiento de frecuencias:
Este juego utiliza un mando remoto de 2.4 GHz. Antes de jugar el mando remoto y el vehículo necesitan enlazarse

- Encienda el interruptor del vehículo
- En 5 segundos, encienda el transmisor

En este momento el mando se enlazará con el vehículo y las luces del mando dejarán de parpadear. El juego está listo para ser utilizado

SEGURIDAD Y MANTENIMIENTO DE LA BATERÍA

INSTRUCCIONES DE USO DE LA BATERÍA Y PRECAUCIONES

- Las baterías deben colocarse con la polaridad correcta. No mezcle diferentes tipos de baterías o baterías nuevas y usadas
- Solo las baterías recomendadas deben usarse
- El terminal de alimentación no puede sufrir un cortocircuito
- Las baterías agotadas deben ser retiradas del vehículo
- Las baterías no recargables no deben cargarse
- El usuario debe examinar regularmente los cables del cable, el enchufe y otras partes asociadas. En caso de daño, debe ser reparado o reemplazado
- El vehículo a control remoto debe utilizar 5 baterías alcalinas no recargables de 1,5 V, el mando remoto debe utilizar 4 baterías alcalinas 'AA' no recargables de 1,5 V

Manovra dinamica

Cambio su D per Guidare
Volante con vibrazione forte

Cambio su R per la Retromarcia
Volante con vibrazione debole

Accoppiare il dispositivo alla frequenza del telecomando

Accoppiamento della frequenza:
questo giocattolo usa un telecomando da 2.4GHz, prima di giocare bisogna accoppiare il telecomando e il veicolo

- Accendi il veicolo
- Accendi il telecomando entro 5 secondi

A questo punto il telecomando si accoppierà con il tuo veicolo e le luci del telecomando smetteranno di lampeggiare. Il giocattolo è pronto all'uso

Sicurezza e manutenzione della batteria

ISTRUZIONI E AVVERTIMENTI PER LA BATTERIA

- Le batterie devono essere inserite secondo la polarità corretta. Non mischiare tipi diversi di batterie o le batterie nuove con quelle usate.
- Nella macchina possono essere inserite solo le batterie consigliate o dello stesso tipo.
- Il terminale di alimentazione non può andare in cortocircuito.
- Le batterie scariche devono essere rimosse dalla macchina.
- Le batterie non ricaricabili non devono essere ricaricate.
- L'utente deve controllare regolarmente che non ci siano danni al cavo, alla spina e alle relative parti. In caso di danni, smettere di usare il veicolo finché non sono stati riparati. Non compiere le riparazioni da solo, poiché ciò potrebbe causare tagli.
- La macchina RC richiede 5 batterie alcaline AA da 1,5 V non ricaricabili, il telecomando RC richiede 4 batterie alcaline AA da 1,5 V non ricaricabili.

Pairing the Device to Transmitter Frequency

Frequency pairing:
This toy uses 2.4GHz remote control, before playing the remote and truck need to pair up

- Turn the switch of the truck ON
- Within 5 seconds turn on the transmitter

At this point the remote will pair up with its truck and the lights of the remote will stop blinking. The toy is now ready to use

Battery Safety and Maintenance

BATTERY USE INSTRUCTION AND CAUTIONS:

- Batteries must be inserted with the correct polarity.
- Do not mixed different types of batteries or new and used batteries
- Only the recommended or the same type batteries can be used with the car
- The supply terminal can not be short circuited
- Exhausted batteries must be removed from the car
- Non-rechargeable batteries should not be charged
- The user needs to be regularly examined for the damage of the wire, plug shell and related part. In the event of such damage, stop using until the damage has been repaired. Do not break of the antenna of the controller, or the sharp part may cut you
- The RC car should use 5x1.5V 'AA' alkaline non-rechargeable battery, RC controller should use 4 x 1.5V 'AA' alkaline non-rechargeable battery

Dynamic Manipulation

Shift into D for Drive
Steering wheel strong vibration

Shift into R for Reverse
Steering wheel soft vibration

Macchina della Polizia

Telecomando a forma di volante con simulazione 4D

Manuale
Dai 8 anni in su

Manipulation dynamique

Passer en D pour conduire
Força de vibration du volant

Passer en R pour le marche arrière
Vibration douce du volant

Installation de la batterie du véhicule

Après le démontage de la batterie, insérez 5 piles AA 1,5V et refermez le capot.

Installation de la batterie du télécommande

Après le démontage de la batterie, insérez 4 piles AA 1,5V et refermez le capot.

Doppelmodi
Modus I - Normaler Steuerschaltmodus
Modus II - Schwerkraftsteuerschaltmodus

Remote Control Transmitter Operation

When the indicator light on the remote control is not lit, it indicates the battery is empty, please replace the battery.

DO NOT MIX AND MATCH BATTERIES. ONLY RECHARGEABLE BATTERIES ARE ALLOWED.

Remote control battery installation instructions:
Open the battery cover, install 5x 1.5V 'AA' batteries, and close the battery cover.

Transmitter battery installation:
Open the battery cover, install 5x 1.5V 'AA' batteries, and close the battery cover.

Dual Modes
Mode I - Steering wheel driving mode
Mode II - Gravity driving mode

Remote Control Transmitter Operation

When the indicator light on the remote control is not lit, it indicates the battery is empty, please replace the battery.

DO NOT MIX AND MATCH BATTERIES. ONLY RECHARGEABLE BATTERIES ARE ALLOWED.

Remote control battery installation instructions:
Open the battery cover, install 5x 1.5V 'AA' batteries, and close the battery cover.

Transmitter battery installation:
Open the battery cover, install 5x 1.5V 'AA' batteries, and close the battery cover.

Dual Modes
Mode I - Steering wheel driving mode
Mode II - Gravity driving mode
