If this description is inconsistent with the actual object, please prevail in kind.

## Product instructions

1 Wireless charging	7 Wireless operation indicator light
2 phone holder	8 fast charging and discharging indicator light
3 pen insertion positions	9 Battery level indicator light
4 Original center replacement slot	10 Type-C charging and discharging interface
5 writing core paper	11. Press once/15 seconds after turning on the machine, and it will automatically turn off
6 card insertion slots for business cards	

### Warning!

1. Do not shake, strike, or throw the product forcefully.  
If the power function is not used for a long time, please charge and discharge it at least once every 3 months to ensure the product's lifespan.
3. Do not place the product in damp or heat source areas, and do not expose it to the sun
4. This product is not suitable for children under 7 years old.
5. Working temperature: 0 ° C-40C, please do not use the product in extreme temperature environments.

## Battery specifications:

1. Polymer cell
2. Battery capacity: 10000 (6000) mAh
3. Output: 5V-3A9V-2A12V-1.5A
4. Wired output: 5V-3A9V-2A12V-15A
5. Wireless output: 15W (MAX)
6. Maximum output power: 22.5W (MAX)

### Instructions for using mobile power supply:

1. The wireless charging function of this product only supports wireless charging of mobile phones.
2. This product has a built-in wireless charger. Place the phone on the wireless charging label and press the power button to start wireless charging.
3. Press the power button of the product, insert the included USB cable into the output port of the product, and connect the other end to your phone for wired charging.
4. When the mobile power supply of the product is depleted and needs to be fully charged, please disconnect the power supply.
5. There is a battery indicator light next to the power button. Please fully charge the product for the first time using it.
6. Please refer to the actual product for the charging/discharging wires included with the product.

Passed through high-speed rail stations and airports, requiring security clearance before being carried with you

### FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
—Reorient or relocate the receiving antenna.  
—Increase the separation between the equipment and receiver.  
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
—Consult the dealer or an experienced radio/TV technician for help.  
Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.  
The device has been evaluated to meet general RF exposure requirement.  
This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
