Q1 WIRELESS CHARGING STATION

USER MANUAL

Packing List

3 in 1 Charging Station, Type-C Charging Cable, User Manual, Power Adapter

Packing Contents:

3 in 1 Charging Station x 1
Type-C Charging Cable x 1
User Manual x 1
Power Adapter x 1

* Thank you for purchasing Q1 Wireless Charging Station. Please read the user manual carefully before using it. For any questions, please feel free to contact us through Amazon.

Product Overview

① Watch charging area
② Phone charging area
③ Non-slip pad
④ LED Indicator light
⑤ Earphone charging connector
⑥ Type-C power port

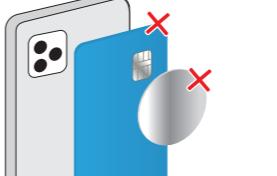

Operation Guide

Step 1: Plug the included Type-C USB charging cable into the Type-C input port of the wireless charging stand.
Step 2: Plug the other end (the USB port) of the charging cable into power adapter (Provided), then plug into the power outlet.
Step 3: Place the device that supports wireless charging function in the center of the charging surface and ensure that the device is aligned with the charging coil of the wireless charger.
Step 4: After placing the device on the charging stand, it will automatically detect the device and start charging. The indicator light on the front of the charging stand will turn green to indicate charging is in progress.
Step 5: Please remove the device from the charging stand in time after charging is complete.

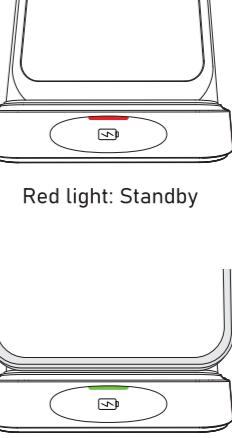

Note:

1. The back of the phone should not have any metal objects or magnetic cards.
2. If you choose to charge with a case, please use a phone case with a thickness less than 4MM.

18W
***Please use 5V or QC3.0 adapter.

LED Indicator Light Instructions

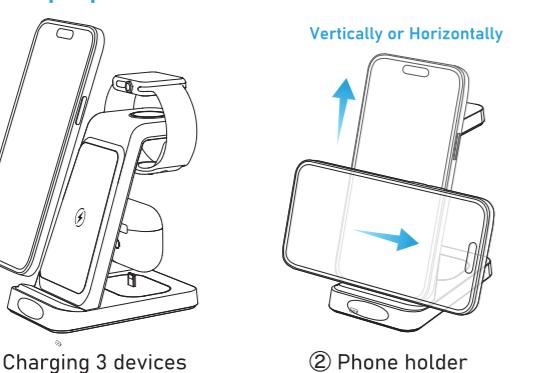

Red light: Standby
Green light: Charging

Note:
When charging, if the current at the power supply end is insufficient or the phone case is thick, the red light may flash.

Product Features

This 3-in-1 wireless charging stand is a more convenient way to charge and compatible with most Android and iOS devices that support wireless charging. It transmits power to the device through electromagnetic induction technology without connecting a charging cable. Say goodbye to tangled wires and enjoy the convenience of revolutionary technology.

Multi-purpose use

① Charging 3 devices simultaneously
② Phone holder

| Adapter | ≥ QC 3.0; 18W |
| Size | 165*141*15mm |
| Weight | 342g(0.75lb) |

Safety Instruction

1. Please use a formally certified power adapter, and the socket installation must also comply with safety regulations.
2. Adapter voltage requirements: between 4.9-5.3V, please do not use non-standard power supply.
3. Do not disassemble or modify the external structure of the product. Improper reassembly could result in fire or personal injury.
4. Do not expose this product to rain or humidity or high temperature.
5. Please place the product away from flammable and explosive liquids, gases or explosives.
6. Do not use harmful chemicals or detergents to clean the product.
7. Do not place magnetic cards and metal objects in the charging area.
8. The working environment temperature is -10°C-35°C.
9. Make sure your device supports wireless charging, otherwise the wireless charging function will not be available.
10. For a better charging experience, please don't use a phone case or use a thinner phone case when charging.

FAQ List

Q: Why isn't my device charging?
A: 1. Please make sure your device supports wireless charging and is properly placed on the charging stand.
2. Check whether there is any metal or magnetic object that interfering with the charging.
3. Check the status of the indicator light: red when standby, green when charging.
4. Replace the adapter or the cable that connects to the wireless charger.
5. Restart the phone.

Q: Charging is slow or interrupted.
A: 1. Adjust the placement of the device so that the charging coil of the device is aligned with the coil in the wireless charger.
2. The thickness of the phone case should not exceed 5mm.
3. Check whether the power adapter is a QC3.0/15W fast charger.
4. Unplug the adapter and reinsert it.

Q: Can multiple devices be charged simultaneously?
A: This 3-in-1 wireless charging station can simultaneously charge iOS phones, watches, and earphones that support wireless charging. One power supply, three devices can be charged at the same time, enjoy an efficient charging experience.

Warning

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment must be installed and operated with a minimum distance of 15 cm between the radiator and user body.
