### Components

- Main Unit for Wireless Charger
- USB Type-C Cable (1M)
- User Guide

### Instructions

- Please read the user guide before using the product to ensure safe and correct usage.
- The images in the user manual may differ from the actual product, and the content may be subject to changes without prior notice for performance improvements.
- To use the product with other mobile devices, please ensure compatibility between the mobile device and the product.
- Note that wireless charging may be difficult with certain mobile phone accessory cases, depending on the case design.

The USB Type-C charging adapter is not included and needs to be purchased separately.

Fast charging at 15W is possible when using a charging adapter with a minimum power output of 25W.

It is recommended to use the Samsung 25W genuine charging adapter. Using a non-Samsung genuine charging adapter may result in normal charging not being possible.

The components provided may not be compatible with other devices.

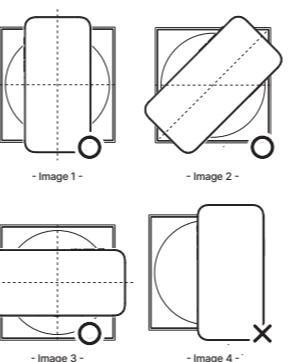

The provided components and available accessories may be subject to change depending on our circumstances.

During charging, make sure the charger is near an electrical outlet and placed within easy reach.

### How to Use the Product

- Connect the product to a power source.
- Place your mobile phone on top of the product.

### Precautions for Device Charging

Please place the product and the device as shown in Images 1, 2, and 3, ensuring they are aligned at the center. If the device is placed incompletely as shown in Image 4, the charging efficiency may be reduced.

When using the product, make sure the back of the device is in contact with the wireless charging area. Dropping the device onto the product may cause damage to the product. In such cases, it will be considered consumer negligence. Please use it with caution.

### Wireless Charging Compatible Models

Please find the list of models that support 15W wireless charging.

- Supports 15W Fast Charging**  
S23 Ultra, S23+, S23, Galaxy Z Fold4, Z Flip4, S22 Ultra, S22+, S22, S21 Ultra 5G, S21+5G, S21 5G, Note20 Ultra 5G, S20 Ultra 5G, S20+5G, S20 5G, Note10+

- Supports Standard Fast Charging**

The product is compatible with a wide range of Galaxy smartphones that support wireless charging, as well as other devices such as the iPhone 14 ProMax, 14 Pro, 14+, 14, 13 Pro Max, 13 Pro, 13, 13 mini, 12 Pro Max, 12 Pro, 12, 12 mini, 11 Pro Max, 11 Pro, 11, X, XS, XS Max, XR, 8, and 8 Plus.

### Product Specification

Product Name	SLBS Edge Wireless Charger
Model	SLBWC120
Manufacturer	WITS VINA CO., LTD
Made In	Vietnam
Release Month of the Same Model	July 2023
Warranty Period	6 months
Repair Service	Contact SLBS at: +82 70-8808-3619
Input Power	9V 2.77A (Using a genuine charger of 25W or higher is recommended.)
Output Power	5W / 9W / 15W
Product Material	RECYCLED PC, RUBBER
Components	Wireless Charger, USB Type-C Cable, User Guide
Specifications	Product Dimensions (Width * Height * Depth) 100 * 100 * 16.3 (mm)
Product Weight	86g

### FCC Information

This device complies with part 15 of the FCC Results. Operation is subject to the following two conditions :

- This Device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for CLASS B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which receiver is connected.

14. Consult the dealer or experienced radio/TV technician for help. WARNING Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

#### IMPORTANT NOTE:

FCC RF Radiation Exposure Statement:  
This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

LED Status Indicator	Safety Precautions	Precautions for Connection	Warranty	Paid Service	French Example Canadian Compliance Statements
Check the charging status of the product through the color of the LED status indicator.	<p><b>Safety Precautions</b></p> <ul style="list-style-type: none"> <li>Please read carefully and strictly follow these instructions before use.</li> <li>This product is intended for users aged 14 years and older.</li> <li>Do not store the product in humid or high-temperature environments.</li> <li>Take caution to prevent children or pets from sucking on or chewing the product.</li> <li>According to the guidelines of the Fair Trade Commission, this product may be eligible for exchange or compensation in case of consumer disputes.</li> <li>In cases of malfunctions caused by user negligence or mishandling, or if the device is disassembled, modified, or intentionally damaged, it will not be eligible for free warranty repairs.</li> <li>Do not touch the product with wet hands.</li> <li>Avoid subjecting the product to severe impacts such as dropping.</li> <li>The recommended operating temperature range for this product is 0 °C to 35 °C.
