**WIRELESS KEYBOARD & MOUSE SET**

# USER MANUAL

## PY-JSTRVB4

Thank you very much for using the keyboard provided by our company. Please read this manual carefully before using this product.

## PRODUCT DISPLAY

A Bluetooth® device that uses the HID protocol and can serve as an input device for IOS, Android, and Windows system devices.

## PRODUCT FEATURES

- Double folding design, fully portable after folding.  
Stronger anti folding performance, no password required for connection,  
can be turned **ON** or **OFF** by turning the switch, and hardware coding  
does not require complicated operations.  
Multi functional shortcut keys for easier operation.  
The surface of the keycap is ergonomically designed to fully improve the  
tactile sensation of the phone towards the keycap.

**LED**

- Change LED:** When this LED lights red, the keyboard is in a charging state and automatically turns **OFF** when fully charged.
- Caps/BT LED:** When the keyboard is turned **ON**, this LED will light up blue 1–2 seconds and automatically turn **OFF**.
- Press the connect button:** When this LED flashes blue, the keyboard is in connected state and automatically turns **OFF** after connection.
- During key operation, this LED always lights blue, and the keyboard letter switch from lowercase to UPPERCASE.

## EQUIPMENT SYSTEM MATCHING INSTRUCTIONS

After a successful bluetooth® keyboard connection, it must be matched with your tablet system.

- When the tablet is an Android system, press and hold the **Fn+For Android combination key** to match the system. At this time, the **Caps/BD LED** will flash twice and then turn **OFF**.  
When the tablet is a Win system, press and hold **Fn+For Win combination key** to match the system. At this time, the **Caps/BD LED** will flash twice and then turn **OFF**.  
When the tablet is an IOS system, press and hold the **Fn+For Win key combination** to match the system. At this time, the **Caps/BD LED** flashes twice and then goes **OFF**.  
**(NOTE: If system matching is not performed, there may be discrepancies between some input characters and key content.)**

## KEYBOARD PAIRING & CONNECTIONS STEPS:

1. Turn the power switch of the keyboard to ON, and the Power LED will light up for 1-2 seconds before automatically turning off;
  2. Press the Connect button, and the BT LED will flash, indicating that the keyboard is in a paired connection state. (Note: If pairing is not performed for more than 1 minute, the keyboard will automatically enter standby mode. At this time, you need to press the Connect button again to start pairing.)
  3. Open the settings of the tablet - Bluetooth, find the Bluetooth name in the search, Bluetooth Keyboard, and click Connect
- (Note: Password free connection, BT LED will turn off after successful connection).

## SPECIAL REMINDER

For other Bluetooth devices that can be activated, please carefully check the Bluetooth standards and compatibility before connecting.

## FN+Shift+Key Combination Function in Windows System

## Implementing ESC-F12 standard functions separately

Note: After connecting the device, you must press the FN+corresponding system key to select the system, otherwise the keyboard function will be invalid

## KEYBOARD PARAMETERS

Bluetooth version	Bluetooth 5.0
Effective operating range	Within 10 meters
modulation mode	GFSK
working voltage	3.0-4.2V
Working current	<2.5mA
Standby duration	>114 days
Charging duration	<2 hours
Lithium battery capacity	150mAh
Sustainable working hours	>44 hours
Lithium battery life	1 year
support system	IOS, Android, Windows
Keyboard size	294,5 * 92 * 9.2mm (unfolded size)
Keyboard size	147 * 92 * 18.4mm (folding size)

## ENERGY SAVINGS SLEEP MODE

When there are no operating instructions on the keyboard within 10 minutes, the keyboard will automatically enter sleep mode. When needed, simply press any key and wait for about 3 seconds. The keyboard will be awakened and can function normally

## CHARGE METHOD

When the voltage is below 3.2V, the "Charge" indicator light turns blue and flashes continuously. At this time, the keyboard needs to be charged:

- 1 Connect the B-end of the original USB cable to the keyboard charging interface
- 2 Connect the A-end of the original USB cable to the power adapter or computer's USB interface
- 3 The connection is successful, and the charging status "Charge" will be indicated in red. When the power is fully charged, the "Charge" indicator light will automatically turn off.

## HOT TIP

1. For other Bluetooth devices that can be activated, please carefully check the Bluetooth standards and compatibility before connecting
2. When the keyboard is not in use for a long time, we recommend turning off the keyboard power to extend battery life
3. To achieve longer battery life, we recommend charging the keyboard when the low battery warning light flashes

 Warning: Failure to follow the following safety instructions may result in fire, electric shock, and damage to keyboard equipment

 Danger (Be alert to high danger)

 Attention (for minor hazards)

- ✗ Stay away from sharp tools

 Stay away from sources similar to

- ✗ Prohibit heavy object squeezing
- ✗ Do not impact on hand the handle

 Stay away from oils, chemicals, or other organic solvents

**FCC Caution.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

\*RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
