- Product size: diameter 4.52 \* H12.6in (11.5 \* H32cm)
- Working hours: 2-3 hours

## PACKAGING CONTENT

- 1 JELLYFISH LAMP
- 1 USB-C CABLE
- 1 Fishing Hook
- 3 Jelly Fish

## PRODUCT INSTRUCTIONS

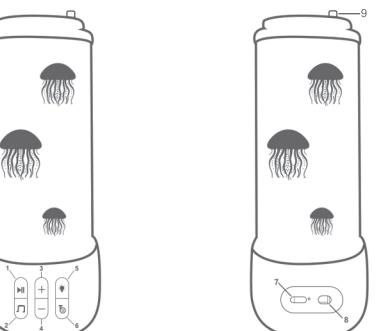

- ① Pull and open the silicone seal cover(9).Put clean water in the water tank. (95% full is enough)
- ② Turn on the power switch and press the motor button to start the water pump.

③ Add 3 drops of detergent into the water and wait for about 1 minute for bubbles to disappear.

④ Immerse three jellyfish in water and let them float up and down. (If there are bubbles in the jellyfish, you can use a stick to flip it over and release the bubbles, otherwise the jellyfish will remain floating on top.) Close the silicone seal down.

Do not keep the lamp working for more than 8 hours each day, to save the life of the motor.

Change the water after about 2 weeks because the water may get dirty.

### ⚠️ Notice

Water motor will start for working 8 hours and stop for 16 hours then restart to work for 8 hours in a circle for 24 hours automatically. When the water motor stops moving, if it needs to be restarted, it only needs to press the motor button (⑥) again to restart the operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
