### LITHIUM-ION BATTERY WARNINGS

This device contains a non-removable Lithium-Ion battery. The battery must be recycled or disposed of properly. Contact your local waste management office for information on battery recycling or disposal.

### FCC INFORMATION

This equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the distance between accept any interference received, including interference that may cause undesired operation.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an

experienced radio/TV technician for help.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This equipment may not cause harmful interference.
2. This equipment must accept any interference received, including interference that may cause undesired operation.

Modifications not authorized by the manufacturer may void the user's authority to operate this device. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

### TROUBLESHOOTING

## PAIRING YOUR DEVICE FOR AUDIO

1. To pair your device, make sure your device is within 33 feet of the Speaker Candle. Refer to your device's owner's manual for details if necessary.
2. Turn the switch of the candle speaker to "BT+C."
3. The pairing mode tone will sound and the speaker is ready to pair.
4. Once the Speaker Candle is in pairing mode and your device is ready to pair, select "Candle Speaker" on your device. If prompted, use 0000 as a PIN for the pairing code. Once the Speaker Candle is selected, a tone will sound to confirm pairing is complete.
5. After the initial pairing of your device, the Speaker Candle should automatically pair with your device the next time the unit is powered on. Depending upon your device, you may have to select "Candle Speaker" in your device's Bluetooth® menu.

6. To enter manual pairing mode to pair with a new device, switch the Speaker Candle to "OFF" and to "BT+C" again to activate the Bluetooth pairing mode.
7. When "BT+C" mode is ON, if there is no Bluetooth connection established or the connection is lost for over 30min, the Speaker Candle will automatically turn off the Bluetooth function to conserve battery life. The flame light will remain lit. Re-set the Bluetooth function by moving the switch to "OFF" and then to "BT+C" again to activate Bluetooth functions.
8. Volume control and playback function can only be controlled through the paired device.

NOTE: The candle light will stay on For 4 hours and then OFF for 20 hours. When the Speaker Candle is in the "BT+C" Mode.
