Operating Guide Charging instructions(2h charging time): Wearing instructions:	Insert the extra collar into the slider. If too long, you can cut parts and turn the end of the collar to avoid fraying. Wear it on the dog's neck, put two fingers to test and adjust to the proper tightness. CAUTION 1. The Contact Points must have direct contacts with dog's skin on the underside of neck. When properly fitted, you should be able to put a finger in between the Receiver Collar and dog's neck. Too loose: The receiver collar will move around the dog's neck. As a result, the dog may not respond well to the command while the contact points may hurt the dog's skin. Too tight: It may cause the dog breathing hard. 2. Do not shave the pet's neck as this may increase the risk of skin irritation. 3. The collar should not be worn for more than 12 hours per day. Or it may cause skin irritation.	Switch description of transmitter and Receiver: Switch lock description:	Explanation of voice mode: Description of the vibration mode	Instructions for the electric shock order Channel switching instructions:	Description of the Auto command Turn on Turn off 4 Mode
CAUTION 1. When the receiver in the automatic mode, the remote control does not in the automatic mode. Press the remote control and it will be a dog training collar, you can control it with the remote again. 2. When the receiver and remote control are in automatic mode at the same time you can only control the sensitivity(1-8) of the receiver with the remote.	Main Features 4 Training Modes(Vibration, Beep, Shock and Shock Boost). 8-Speed vibration adjustable and 0-99 shock adjustable. Receiver Collar IP67 Waterproof, Remote IP53 Waterproof. Remote Range 2000 FT. 2-Hour Rapid Charging Lithium Polymer Battery. Colorful Digital Display Shows Intensity Level, Battery and Dog Support 4 Receiver Collars with One Remote.	Use of the Test Light Tool A: Electric shock test B: As a tool to tighten or loosen the contact points	Training Tips 1. Reward your dog with food / treats will usually help to achieve the best training result. 2. Do not use the device on dogs aged below 6-month, old, pregnant, easily frightened, aggressive, in heat, and in inferior health conditions. 3. Use verbal commands first, and supplement with a corrective stimulus only as needed. Be consistent with your verbal commands, use the same words every time. Work with your pet on one behavior at a time to avoid confusion and frustration. 4. Use as little stimulus as possible and only to reinforce verbal commands when necessary. Do not over correct your dog. 5. For example, use the beep sound as warning by pressing the beep button. The dog will become conditioned to the beep preceding the corrective stimulus and will soon learn to recognize the beep as a warning along with your verbal command. 6. Do not rely on this product solely to train your dog. Some dogs will not respond to this product. We cannot guarantee the effectiveness of this or any trainer on your dog. If your dog shows signs of growling, biting or aggression while using the collar, discontinue use immediately and contact a professional trainer for advice. 7. It is recommended to train one dog at a time in a distraction-free environment, both to increase efficiency and to avoid temptation or distraction from other dogs.	Pairing Instructions Match the remote to the receiver: Pairing multiple receivers:	Question & Answer How to change the longer prongs for this collar? Is the Vibration/ Shock safe for my pet? Troubleshooting
Please check if the battery is low in either the Remote Transmitter or Receiver Collar. Test the Receiver with the Test Light to confirm if shock functions normally. Increase the correction level. Refer to "Find the Best Stimulus Level For Your Dog".	Make sure the Receiver Collar's Contact Points are placed snugly against your pet's skin. Match to receiver with remote Ensure the receiver is connected to a power source (charging mode can only be activated while charging). Must hold the channel switch for more than 5 seconds, if not, matching will fail. If the problem persists after attempting as above, please contact us to confirm whether the receiver and the remote are of the same version.	Remote/receiver does not response. 1) Verify if the Receiver Collar is on. 2) Verify if the battery of the Transmitter is fully charged. 3) Verify if the training collar has been paired.	Check that the channel selected by the remote control is the same as the channel of the receiver. How to replace the replacement strap	Operating Environment & Maintenance Do not use the product in the circumstances as follow: 1. Do not operate the devices under temperature of 104°F and above, doing so in such high temperature will decrease the performance of the batteries. 2. Do not use the set in places with strong electromagnetic interference. This will greatly compromise the performance of the product. 3. Avoid dragging the devices on hard surface or inflict excessive force on them. 4. Avoid using the devices in environment flooded with corrosive chemical, this may lead to color degrading, deforming, or cracking of exterior of the devices. Maintenance: 1. When not in use, please wipe clean both the Remote and Receiver with mild detergent. Turn off the Remote, lock the keypad, put on the rubber lid on the Receiver's charging port, and store the set in a cool dry place. 2. During cleaning, wipe with soft cloth and mild detergent. Do not use hand brushes which may scratch the surface of the device. 5. If the Remote fell into water, pick it up quickly and turn off the power. Dry it with cloth as much as you can and let it out to dry. It should resume function normally once the moisture is dried out.	Customer Support Dear Customer, THANKS FOR YOUR ORDER! Your nice sharing will encourage us to improve our products and service, we will do our best to offer you a pleasant shopping experience. We provide 12 months warranty, if any questions or problems about this bark collar, please feel free to contact us via email. fangfang2023@163.com Best Wishes

FCC Caution:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
